The Alabama Legislative Commission—Additional Revenue Appointments—The Outrages in Georgia—Cemetery Superintendent Transferred—Appointment of Supervisors—Arming Citizens of the Frontier—Negro Troops for Tennessee.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Sept. 26, 1868.

THE ALABAMA LEGISLATIVE COMMISSION.

The delegation of the Alabama Legislature having neglected to bring an authenticated copy of the resolution under which they are acting, will await its arrival by mail before officially visiting the President. Gov. Smith is with the delegation, by request of the Legislature, to advise and support them. He has official functions to perform here in connection with the application for troops. He is of the opinion that the action of the Legislature, though unusual in form, meets the requirements of the Constitution. In the matter of securing Federal aid he does not fully sympathise with the Legislature in its call for additional troops, and expressed his confidence in his own ability to maintain the peace of the State. The people desire peace, and he has the assurance of men of both parties of support in his efforts. There is some disorder on the line of the Tennessee river and north of Mobile, but elsewhere throughout the State there are no indications of disturbance and no disposition to resist the law. In no other portion has any officer regularly installed in office been resisted in the performance of his duties. The Governor is apprehensive that during the excitement of the coming election imprudent parties may commit acts which will lead to serious disturbances, unless restrained by some assurance from the President that they will be put down by Federal authority. Beyond this assurabce, Governor Smith is inclined to think no Federal interference is necessary at present.

REVENUE APPOINTMENTS.

The following Internal Revenue officers were appointed to-day:

Gaugers—J. W. Jurber, Second District, Minnesota; Wm. R. Boardman and John Sherman, First District, Minnesota; Robert S. Gray, J. S. Forman, and W. J. Hock, Seventh District, Kentucky; Joseph J. McConnell, Fourth District, Indiana; Thomas Kenssley, Third District, Iowa; J. O. Neer, Fourth District, Ohio.

Storekeepers—R. N. Bartlett, Joilet, Illinois; Robert Cullen, Hamilton, Ohio; Edward Garland, Covington, Kentucky; Danl. Harlow, Springfield, Illinois: Rudolph Koss, Milwaukee, Wisconsin; Wm. B. Milkin, R. R. Maxwell, Milo Page, and Henry Vandierver, Dayton, Ohio.

SUPERINTENDENT TRANSFERRED.

James McCaulley, Superintendent of the Harmony National Cemetery of Washington, has been transferred to the charge of the Butler National Cemetery near Springfield, Illinois.

GEORGIA OUTRAGES.

General Howard, of the Freedmen's Bureau, had an interview with the President to-day in regard to the recent outrages in Georgia.

WASHINGTON, September 27, 1868.

NEGRO TROOPS FOR TENNESSEE.

The Twenty-ninth regiment of United States infantry, which has been on duty here for a year past and numbering over eight hundred men, passed over to Alexandria to-night to take passage for Nashville direct *via* Knoxville and Chattanooga. On reaching Nashville they will be distributed to other points in Tennessee in view of the approaching election. This reduces the garrison at Washington one-half or one-third.

APPOINTMENT OF SUPERVISORS.

It is stated in official quarters that Commissioner Rollins will take no further action in regard to the appointment of Supervisors until the investigation before Commissioner Guttman shall have terminated.

THE CAMILLA RIOT.

It is expected the report of Gen. Sibley on the Camilla disturbance will be received this week.

ARMING OF FRONTIER CITIZENS.

It is understood Lieut. Gen. Sherman has determined to issue arms and ammunition to citizens along the Indian frontier for protection against further depredations by savages.

CANADA.

Crpyright Act—Great Western Railroad—Steamship Collision—Letter from Whalen's Counsel—Quebec Legislature.

[By Telegraph to the Pittsburgh Gazette.]

TORONTO, September 25.—The express robbery case came up again to-day. Judgment is promised on Monday.

A memorial to the Dominion (Ontario) Government to grant ten million acres of land in aid of the Huron and Ontario Ship Canal, is being largely and influentially signed.

OTTAWA, September 25.—The copyright act imposing 12¼ per cent. duty *ad valorem* on British copyrights represented in foreign countries and imported into Canada, goes into force on the 28th inst.

The Great Western Railroad traffic returns for August amount to $260,017, and the returns of the Grand Trunk to $627,713.

QUEBEC, Sept. 26.—The steamships Merritt and St. George collided off Indian Point yesterday. The Merritt was cut down in the port bow to within six inches of the water, and returned to port with her pumps working. The St. George was not much damaged.

J. O'Farrell, the advocate who managed Whelan's defense, has written a letter to the *Chronicle* stating if the obstructions placed on the Grand Trunk Railway to destroy the life of O'Reilly be traced home to any of his countrymen, he will withdraw from the defence of Whalen and other prisoners, and from Irish affairs forever.

Up to this date eighty-eight sailing vessels and five steamships have arrived here more than last year.

MONTREAL, September 26.—The Quebec Legislature meets in the latter part of October. It is understood the Local Ministry will immediately grant $5,000 to the Red River sufferers.

Damage by the Breaking of a Dam.

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, MASS., Sept. 27.—The dam of the large reservoir above Head's village, in Barre, gave way on Friday night and flooded and washed away several other dams, five or six mills and five highway bridges, and badly damaged the roads. Loss nearly $100,000.

NEW ORLEANS.

Civil Rights Bill Vetoed—The Governor's Message.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, September 26.—Governor Warmouth has vetoed the civil rights bill. Gov. Warmouth, in vetoing the bill, says the State Constitution fully establishes all the rights and privileges sought to be secured by it. He says, after enumerating his objections to its different sections, that every person, colored as well as white, is equally secured by the Constitution in the enjoyment of political and civil rights, and in his remedy for their infringement the Courts are open to all alike. The same rule obtains in National and State Courts. The Judges of the State Courts and their officers are amenable to and dependent upon it. All citizens, alike colored and white, constitute juries. Those of the lately enfranchised who are wise and reflecting will not ask for more. They will rather deprecate a kind of legislation which, instead of advancing their present condition, only renders the enemies of their race more bitter and determined in their hostility, and furnishes them weapons whereby to assail the rights which the colored men have already acquired. The Governor says further: In returning this bill without my signature it is hardly necessary for me to say that I am prepared, so far as lies in my province and power, to enforce the new Constitution as it exists. Such is my desire, as it is my duty, that when I find the act in question to be in my best judgment unnecessary and unwise, to demoralize the public conscience and intensify dissention, which will surely yield to the power of the time and the growth of more Catholic views of our personal relations, it becomes no less clearly my duty to decline to sign it.

NEW ORLEANS, Sept. 27.—The wrath of the negroes at Gov. Warmouth's veto of the negro equality bill is unbounded. Threats against his person are reported.

In the House Mr. Isabele, colored, author of the bill, said if Gov. Warmouth had been elected on the Democratic ticket he should not have been surprised at the veto, but he was surprised that such a document should come from a man elected on the Radical Republican platform. He thought the message was a very weak document and carried out certain principles of the Chicago platform, which he did not approve. He said when he should see colored men sitting in the halls of Congress he should be ready to exclaim, "Oh, Lord, I have lived to see the salvation and I am ready to depart."

Another negro announced if this bill brought on a conflict, let it come; the black man was ready for it.

The consideration of the veto was postponed until Monday.

Senator Bacon's supplementary registration bill provides for the adoption of the registration of voters made under military commanders until registration under the State laws can be completed. The negro equality bill will probably kill this bill in the House, if it passes the Senate.

Judge Wm. H. Cooley, of the Sixth District Court in this State, who was refused registration on techinal grounds, has sued out a mandamus, returnable at the Fifth District Court on Monday. Other cases are reported of discharged United States soldiers presenting both their discharge and naturalization papers and being refused because the latter were issued by the Fifth and Sixth District Courts, which the State Board of Registration say are illegal.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, September 26, 1868.

The weather changed from warm this morning to a chilly easterly rain, which prevails this evening.

Police officers McCready and Shehan were to-day held in $1,000 bail for trial on a charge of beating a citizen who refused to pay them blackmail.

The water street prayer meetings were well attended to-day. One of the exhorters at Allen's urged that prayer meetings should be opened in Fifth avenue, as there were more wicked people there than in Water street.

A man now perambulates Water street daily with a sign containing the words: "Prepare to meet thy God; the time is short."

The deaths during the week were four hundred and fifty-four.

The National Labor Congress to-day voted a salary to its President. The resolutions relative to emigration were explained as not being aimed against emigration, but against the Emigrant Aid Society, which is a monopoly, practically introducing white slavery into the country. Cady Stanton made a speech favoring emigration. The President made a valedictory address, expressing the hope that the National Labor party will elect a President of the United States and carry consternation into Wall street. The Congress then adjourned *sine die.*

The steamships City of Boston, Louisiana and Brittania sailed to-day for Liverpool.

C. Brandistel, the German who killed a rough named Thomas Cunningham, a few weeks since in self defense in Brooklyn, was to-day acquitted and discharged.

Mrs. Abraham Lincoln leaves here October 1st for Liverpool.

The Rollins revenue conspiracy case was continued to-day by the examination of witnesses. Nothing material was elicited.

NEW YORK, September 27, 1868.

A Northeast storm has prevailed here to-day, and, consequently, the attendance at the churches was generally light.

A subscription has been opened for the relief of the sufferers by the recent earthquake, in South America, at the banking house of Galloway & Cassada, 104 Pearl street.

George Summers fell from a third story window of the Astor House, last evening, and died soon after from his injuries at the New York Hospital.

A coal train at Newark to-night ran into a locomotive, completely wrecking the latter and then crashing into a dwelling house on Spring street. Nathan Nichols, engineer, was killed and the conductor and two brakemen injured.

The Municipal Election in Nashville.

[By Telegraph to the Pittsburgh Gazette.]

NASHVILLE, September 26.—The municipal election passed off quietly to-day, A. Alden, the present incumbent, was re-elected by five hundred and twenty majority. All of the Aldermen except one, and all of the Councilmen except two, are supporters of Alden. Thornberg carried but one ward, the Fifth. Both candidates are Republicans, and supporters of Grant and Colfax. The Democrats and Conservatives united on Thornberg. The *Press and Times*, leading Radical organ, supported Thornberg, who was also sustained by a large portion of the negro voters. During the afternoon the street in front of the Fourth ward polls was patrolled by a company of the 45th Regulars.

Alf. Raines, a negro, was stabbed and mortally wounded in the Sixth ward. No other difficulty is reported. One of the negroes shot last night is dead, and another cannot survive.

SPAIN.

PARIS, Sept. 28.—The *Moniteur* has the following from Spain:

Calabria is quiet. News of a battle between the loyal army under Parva and the insurgents under Serrano is momentarily expected, as at last accounts the hostile forces were nearing each other. Jose Salamanca was sent to Queen Isabella by Gen. Concha, praying that the young Prince Astorias might go to the Capitol and assume the government of the nation. The Queen refused and returned the reply that the Prince should not rule a people of robbers and assassins.

MADRID, Sept. 24.—The *Gazette* confirms the report that the insurgents have appeared in the provinces of Alicante, Leon and Astrios, and that the provinces of Malaga, Rejal and Alcay have pronounced in favor of revolution. The insurgents have again occupied Cordova and destroyed the bridge over Guadalquiver and cut the railroad. Nolvaehez had arrived within fifteen miles of Cordova and sent for reinforcements. The officers of the navy have sworn to accept no reward for serving in the revolution, declaring that they have risen to free the country of oppression and a corrupt dynasty. It is rumored that the Baleric Islands have pronounced in favor of the revolutionists.

LONDON—*Evening*—September 26.—It is reported all is quiet at Madrid. The Queen has abdicated in favor of her son Prince Astorias. Gen. Parva is master of Cadiz.

Special newspapers of Spain say the movements against the Government are abortive.

THE LATEST.

LONDON, September 27—*Sunday Noon.*—No official dispatches have been received from Madrid since Friday. The following accounts come from other sources:

The revolution in Spain is the result of a union of the constitutional, moderate and liberal parties in an effort to overthrow the reigning dynasty. The fleet has joined the movement, because the sailors are unpaid, and the greater part of the army has revolted, because they are indignant at the exile of their favorite Generals. The Church, which is bound by every tie to the Queen, resists and holds the masses in check. As far as can be ascertained from the various reports received up to the present hour, the insurrection extends throughout the provinces of Cadiz, Seville, Cordova, Huelva, Grenada, Valencia, Alicante, Alegesrias, Malaga, Vigo, Ferralo, Corunna, Logruno, Almeria and Oviedo, and many armed bands have appeared in the provinces of Hulsea, Saragossa, Teruel and Navarre. General Pacia has arrived in the vicinity of Cordova, but his troops were deserting in large numbers, and he was obliged to stop his march and wait for reinforcements from Cindad, Real and Badajos, which at last accounts had not reached him. The Province of Biscap has sent troops to San Sebastian for the protection of the Queen. In Andalusia the telegraph wires have been cut and the railroads torn up.

The official journals of Paris, in reflecting the feeling of the Emperor Napoleon, are apprehensive of the effects of a great revolution so near France, and are seeking in leading editorials to discourage the movement. But it is generally believed here that the revolution will be successful and result in the expulsion of the Bourbons and probably in the accession of the Montpensier to the Spanish throne.

A dispatch from Paris says General Prim, with a fleet of ironclads, was expected at Barcelona yesterday.

STILL LATER—OFFICIAL.

LONDON, September 27.—*Evening.*—Official dispatches have been received from Madrid to-night, which contain the following intelligence:

The rebel forces, under General Serrono, and the Royal army, under the Marquis of Novaleshez, are gradually approaching each other, and it is probable that a decisive battle will soon take place. The Marquis asks for reinforcements. General Prim is not well received by other rebel Generals and is carrying out his own plans without their coöperation. The rebels have been driven from Alcoy, in the province of Alicarte. The city of Madrid remains quiet, and no revolutionary demonsrtations have been made in the northeastern provinces.

ENGLAND.

LONDON, September 26.—The *Times*, this morning, has an article on the designs of the United States on Mexico. The *Times* would approve of the absorption of that country into the American Union, if it could be assured of two things, viz: The future peace of Mexico and the payment of her debt.

The case of Sarah Rachel Leverson, better known as Madam Rachel, for conspiring to defraud Mrs. Mary Tucker Barradile of a large sum of money, has been determined. The Judge sentenced Madam Rachel to five years' imprisonment at hard labor.

QUEENSTOWN, September 27.—The steamship Scotia arrived on Saturday.

SOUTHAMPTON, September 27.—The steamship Aellmania arrived at 9 o'clock this morning.

RUSSIA.

ST. PETERSBURG, September 26.—There is much excitement here on the announcement of the total wreck of the Russian corvette Alexander Newski, off the town of Harbere, Denmark. Grand Duke Alexis was on board. It is expected all hands were saved.

ST. PETERSBURG, September 26.—Dispatches have been received announcing the safety of the Grand Duke Alexes. The crew of the wrecked frigate will also be saved.

TURKEY.

VIENNA, September 26.—The *Debatte* says Roumania took no steps to prevent the recent disturbances in Bulgaria. The Sublime Porte has protested to the Great European Powers, and will make every effort to preserve the Empire.

IRELAND.

DUBLIN, September 27.—The leaders of the so-called Fenian party in Ireland are everywhere forming political coalitions with the Tories. They even oppose such candidates for Parliament as O'Donohue, John Francis Maguire, of Cork, and other equally strong advocates of Irish races. The journals in Ireland which have shown the most sympathy with the late Fenian agitations have come out strongly in favor of this coalition.

SWIZERLAND.

BERNE, September 26.—A request to send representatives to the Peace Congress, soon to assemble here, will be forwarded to the United States Government as well as to the different European nations.

AUSTRIA.

VIENNA, September 26.—John Hay, American Charge d'Affairs, had an audience with the Emperor yesterday.

Count Audrasey, President of the Hungarian Ministry, has resigned.

FRANCE.

PARIS, September 26.—The news from Spain is meagre. Official reports state that the news is favorable to the Government. The Emperor has invited Prince Napoleon to Paris to consult on Spanish affairs.

FINANCIAL AND COMMERCIAL.

FRANKFORT, September 27.—Bonds quiet at 75¾.

THE INDIAN WAR.

Accounts of Desperate Fighting—Colonel Forsythe's Command Receieves Reinforcements.

[By Telegraph to the Pittsburgh Gazette.]

FORT WALLACE, KS., Sept. 27.—Chief Scout M. L. Horn, just from Col. Forsythe's command, on Delaware Fork, reports that Colonel Carpenter, who started from near Cheyenne, writes that on the morning of the 24th he reached Colonel Forsythe on the morning of the 25th. He saw no Indians on the way going, other than the bodies of eight or more warriors evidently killed in the fight. Nearly twenty miles away they saw six or eight of these on scaffolds and on each were one or more bodies.

The command which left here on the 24th, under Col. Bankhead, with provisions, supplies, &c., arrived soon after Col. Carpenter. They were attacked on the way by a party of Indians, who wanted their stock but did'nt get any of it. Col. F. lost five killed and twelve wounded, and all his horses. The Indian loss was not far from eighty killed and wounded, besides a large quantity of stock.

The fight on the first day is described as being the most desperate that has ever taken place on the plains, the Indians making charge after charge, sometimes coming within fifty feet of the men. The island on which they were having only a few bushes, and there being but a small amount of grass, the men lay almost entirely exposed, their only defences the little sand breastworks which were thrown up with no tools but their hands, working between the attacks of the Indians, who rode round and round, charging down upon them at some point, one part of the men digging while the rest fought. The Indians, who were Sioux, Cheyennes and Arrapahoes, numbered from six to seven hundred, and were well armed with Spencer carbines and Henry rifles. It was estimated they fired not less than one thousand rounds, besides a quantity of arrows, the ground all around being thickly strewn with the latter.

But little fighting was done on the second day, and after that, though a portion of the Indians remained in the vicinity until the last three days, no attack was made.

The scouts saw trails of large parties driving many horses and mules going south and east, and it was thought to be the design of these Indians to get below the Arkansas, and that they would probably cross about Monument. They will be closely watched.

Col. Forsythe's command was to start for Fort Wallace this morning and will reach here in four or five days. His wounds are doing well and he is said to be in no danger.

Georgia Legislature.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, September 26.—The Senate to-day made the bill declaring negroes ineligible to office the special order for Monday.

In the House the Committee on the State of the Republic was unanimous, rehearsing the action of Georgia after the war closed, asserting that all that had been done by the State was in accordance with the acts of Congress. It deprecates inflamatory appeals to negroes and abusive political points and speeches and states facts are perverted and imagination drawn upon to give to the world tissues of falsehoods and producing impressions abroad that there is little protection here for life or security, for person or property. The report asserts that it is the purpose of the white people to faithfully protect the negro race in the enjoyment of all the rights, privileges and immunities guaranteed them by the constitution and laws of the United States and constitution and laws of this State. It asserts that it is no purpose of any party of the State to impair the constitutional rights of the people to peaceably assemble for the consideration of any matter or obstruct any portion of the enjoyment of any other constitutional right or privilege.

The National Bank of New York has declined to loan money on the credit of the State of Georgia.

Disastrous Fire in Wheeling—Four Persons Killed and Six or Eight Badly Injured.

[By Telegraph to the Pittsburgh Gazette.]

WHEELING, W. Va., September 27.—A disastrous fire occurred at an early hour this morning in Culbertson's foundry. Four persons were killed and six or eight severely injured by falling walls. Chief of Police Shanley had both his thighs broken, and was otherwise badly injured. Assistant Policeman Brady was instantly killed while endeavoring to enter the buliding through a window. Parties have been engaged all day in searching among the ruins for others supposed to have been lost. The property sustained but little damage.

The Alabama Legislature.

[By Telegraph to the Pittsburgh Gazette.]

MONTGOMERY, Sept. 26.—The Legislature is doing nothing of general interest and will probably await the return of Gov. Smith and the Committee with him before proceeding with the business of providing for the election for President in this State. The report of Gov. Smith's views of affairs in Alabama as sent by telegraph to-day gives great satisfaction to the people in this section of the State.

Republican Demonstration in Kansas.

[By Telegraph to the Pittsburgh Gazette.]

ATCHISON, KS., September 26.—The Republican mass meeting in this city to-day was the largest and most enthusiastic gathering ever held in the State. It is estimated that six thousand people were present. A letter from Gen. B. F. Strongfellow was read, repudiating the Democratic party and announcing his support of Grant and Colfax.

ST LOUIS.

Immense Republican Demonstration—Dedication of the Tannery.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, Sept. 26.—The Republicans had a monster demonstration to-night on the occasion of the dedication of the new Tannery erected by the Young Men's Union League, corner of Washington avenue and Twelfth street. The procession consisted of a large number of clubs and other ward organizations in uniform and a big crowd of citizens. There were fully five thousand torches in the line and a great number of flags, banners, transparencies, &c. The streets were densely thronged with spectators, and there could not have been less than twenty to twenty-five thousand persons out. It was the largest demonstration of the campaign, and although demonstrative and enthusiastic, everything passed off in the most orderly manner. The Tannery was handsomely decorated with flags, banners, Chinese lanterns, &c., and presented a brilliant appearance. There was speaking from four stands, and about twenty speeches have been made up to this time, eleven o'clock, and the meeting is still in full blast.

A letter from Hon. John M. Krunn, a prominent lawyer and Conservative of this city, was read at the Tannery, announcing that he intends to support Grant and Colfax.

A prominent feature in the Republican procession to-night was a body of about five hundred negroes, with banners and transparencies.

A. J. Garisch, a prominent lawyer of this city, was refused registration yesterday. Mr. Garisch is the gentleman who contested before the United States Supreme Court the question whether a lawyer could not practice in this State without taking the test oath in the Constitution, and he declares his purpose to contest the same question in its application to the right to vote.

An attachment has been issued against some funds owned by Mr. Laird and supposed to be deposited in the United States sub-treasury in New York.

What the New York "Tribune" Expects.

The New York *Tribune* makes an estimate of the general result of the forthcoming Presidential election, from which we condense the following:

It is as certain as that November will come that Grant and Colfax will receive majorities of the popular vote in the following States:

States.	Electoral Vote.	States.	Electoral Vote.
Illinois	16	Missouri	11
Indiana	13	Nevada	3
Iowa	8	New Hampshire	5
Kansas	3	North Carolina	9
Maine	7	Ohio	21
Massachusetts	12	Rhode Island	4
Michigan	8	South Carolina	6
Minnesota	4	Tennessee	10
West Virginia	5	Vermont	5
Wisconsin	8		
Nebraska	3	20 States—Total	151

Three States, Virginia, Mississippi and Louisiana will not participate in the election, not being reconstructed, and their electoral votes being excluded by a joint resolution of Congress. Maryland and Kentucky will go Democratic. The following States are in uncertainty, but the Republicans have the better chance of carrying:

	Electoral Votes.		Electoral Votes.
Pennsylvania	26	Florida	3
New York	33	Louisiana	7
Connecticut	6		
Oregon	3	Total	78

Georgia, Alabama and Arkansas are in doubt, and New Jersey, California and Delaware may be considered to stand on praying ground if our majority in Pennsylvania exceeds 30,000 in October. Not otherwise. On a full survey, we come to the following conclusions:

1. Grant and Colfax will probably receive the electoral votes of from twenty-four to twenty-eight States.
2. Grant and Colfax will be elected whether New York votes Republican or not.
3. Seymour and Blair are sure to carry two States, are likely to carry six, and may even carry ten. But the last figures are improbable.

One hundred and fifty-nine votes are necessary to a choice.

THE PENNSYLVANIA STATE FAIR

This Fair commences at Harrisburg tomorrow and will continue for four days. There are good reasons for believing that this exhibition will be the most extensive and successful ever held in the State. We have the following report of the arrangements made and of the expectations of the committee:

The entries of horses, cattle, sheep and farm products, exceed all former record in these departments. Machinery, agricultural implements and household articles will be on exhibition in great profusion. The displays in the florists' and ladies' departments will form the most beautiful and attractive features of the exhibition. Up to nine o'clock this morning over one thousand entries were made at the office of the Pennsylvania Agricultural Society.

The grounds of the Society are located on the Susquehanna river, about three miles west of this city, and contain about seven acres. Within the grounds is a one-mile race track and buildings capable of accommodating all the entries that will be made. Two large, well-inclosed halls, each sixty-four and thirty-two feet, have been erected for the reception of fine articles. Two tents, one hundred and ten by ninety feet each, have been set up, one for the floral department, and the other for fruits, vegetables, farm products, household articles, &c., and five hundred feet of shedding for the display of carriages, machinery and agricultural implements. Stalls are also provided for horses and cattle, capable of holding two hundred and fifty head, together with numerous pens for sheep and swine. The floral hall is laid out in a beautiful garden and landscape scenery, ornamented with a central lake, fountains of spray and revolving gets, and interspersed with crockery, patches of shrubbery and wild flowers, all combining to form a most pleasing and interesting retreat for visitors. There will be races every day.

The indications are that many thousands of strangers from abroad will be here. The gates will be open to visitors on Tuesday morning, at ten o'clock. At two o'clock P. M. a grand cavalcade of all the horses and carriages within the grounds will take place upon the track. At three o'clock P. M. there will be a trial of speed between trotting horses entered for premiums.

On Wednesday morning the gates will open at an early hour, and at eleven o'clock A. M., precisely, a parade of the Fire Department of Harrisburg, in full equipments, accompanied by a grand cavalcade of all the stock entered for premiums, so far as it is practicable to arrange it, will take place. During the day several well-contested trials of speed will be made.

All the principal railroads in the State will issue excursion tickets.

THE POWER OF TRUTH.

There is an universal stampede from the Copperhead Democracy. This movement extends to the Irish vote, which always heretofore, has been found faithfully adhering to that party, through thick and thin. Now we find such paragraphs as the following in the *Freeman's Journal*, the New York organ of the Irish Democracy:

"There is no use of disguising the fact that there is distrust and disaffection among very many Democrats."

"We decline being humbugged by political parties. There are principles at stake, or nothing is at stake we care for. A year ago General Grant was a great favorite for the Presidency among the Democrats. Mr. Chief Justice Chase was their dread. This year, even Mr. Seymour was the advocate of the candidacy of Mr. Chief Justice Chase as a funny candidate of the Democratic party. The idea was not accepted. Mr. Seymour himself was put in nomination by the very interest to which he had shown himself most bitterly opposed—the party that insist on paying off the five-twenties in greenbacks. He has accepted the platform, and must sink or swim with it.

"Affairs are very remarkably mixed up. Men may be excused for getting their heads muddled. We are called on to support a candidate, on national grounds, that was himself avowedly in favor of *another* candidate, most antagonistic to all decent and proper ideas of Federal government.

"We acknowledge that this affair is 'muddled.' Our correspondence is of a character to excite our alarm. There is no use of disguising the fact that there is distrust and disaffection among very many Democrats."

So the Philadelphia *Press* says:

"An association of Irish citizens is about being formed in this city for the purpose of promoting the election of Grant and Colfax. This movement is the harbinger of better times for Ireland. When she comes to recognize the fact that her true friends can only be found among the friends of freedom, her future brightens."

THE Copperhead journals are suddenly down on General J. Bowman Sweitzer, and say that he hasn't influence enough to control his own vote. That's funny, isn't it especially as he had enough of it two years ago to control a Democratic nomination for Congress. The circumstances being altered altered the circumstances. How about Maine.—*Chambersburg Repository.*

California Items.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, Sept. 26.—The steamer Constitution, from Panama, has arrived.

The State Fair at Sacramento closed yesterday. The success in all departments of agriculture, home industry and the exhibition of stock probably was not excelled by any fair in the Union.

In the Oregon Legislature the House passed a bill repealing the law requiring an oath of allegiance to be taken by those drawing money from the State Treasury.

The Oregon State Fair opened at Salem with a fine exhibition of stock. The Fair was a greater success than at any previous period.

Williamet river is lower than ever before known and navigation is difficult.

Base Ball.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, Sept. 26.—The base ball match between the University Nines of Harvard and Brown Colleges took place to-day at Cambridge. A large crowd of spectators was present, including the English Cricketers, who commence a match here on Monday. The Harvard won by a score of 37 to 15.

A Bishop Installed.

[By Telegraph to the Pittsburgh Gazette.]

SCRANTON, PA., Sept. 27.—Right Rev. Wm. O'Hara, first See of Scranton, was installed to-day at St. Paul's Cathedral. Bishops Wood of Philadelphia, Lynch of Charleston, S. C., and Shanahan of Harrisburg, with numerous clergy, officiated.

The Pittsburgh Gazette.

LOVE'S QUEEN.

He loves not well whose love is bold:
I would not have thee come too nigh:
The sun's gold would not seem pure gold
Unless the sun were in the sky.
To take him thence and chain him near,
Would make his beauty disappear.

He keeps his state; do thou keep thine,—
And shine upon him from afar;
So shall I bask in light divine
That falls from love's own guiding star.
So shall thy eminence be high,
And so my passion shall not die.

But all my life shall reach its hands
Of lofty longing toward thy face,
And be as one who speechless stands
In rapture at some perfect grace.
My love, my hope, my all shall be
To look to heaven and look to thee.

Thine eyes shall be the heavenly lights,
Thy voice shall be the summer breeze,
What time it sways, on moonlit nights,
The murmuring tops of leafy trees.
And I will touch thy beauteous form
In June's red roses, rich and warm.

But thou thyself shall not come down
From that pure region far above;
But keep thy throne and wear thy crown,—
Queen of my heart and queen of love!
A monarch in thy realm complete,
And I a monarch—at thy feet.

—Cardinal Andrea, in his will, said "I leave to the Holy Father, the Cardinals, the prelates and my other enemies, my complete pardon;" the rest of his property he disposed of differently.

—The following description of Mrs. Henry Wood, would serve equally well for Miss Bradden. "She is a well known manufacturer of sensation novels in a peculiar language based upon English.

—Longfellow, when last heard from, was lounging about the Lake of Como; he will probably go from thence up among the Alps singing *Excelsior* and keeping a sharp lookout "for the awful avalanche."

—Two telegraph wires are to be connected through Senator Sumner in hopes that the magnetic messages passing through him will drop the word health in his poor body, which has never yet recovered from the brutal assault made on him some years ago by Bully Brooks, the Democrat.

—The Boston *Post*, a Democratic sheet, says General Dix isn't a Democrat and hasn't been since he joined the Republican party in '61. In 1861 General Dix joined the army, and we suppose on the same principal, General Sweitzer and all other loyal soldiers joined the Republican party.

—There is on exhibition, at an art gallery in Chicago, the most splendid specimen of book-making ever seen in that city; it being Whittier's "Maud Muller," done entirely by hand in illuminated letters, with the pages profusely and gorgeously ornamented with flowers and leaves. The covers are of English hollywood, adorned with India ink Pictures.

—Frank Blair is disgusted with the Radical policy during the present campaign; he wants to know why they take up this dead question of war. Why not pay some attention to the live issues? Such we suppose as "Radical misrule," and "greenbacks for bonds." Blair's letter to Brodhead will answer his first question and the second answers itself.

—There is a two horned rhinoceros in the London Zoological Gardens. It can hardly be called a unicorn, and yet rhinoceri are generally supposed to be unicorn; it might be called the unique-horn, or the English arms might be changed to a duel between the dual and the unicorned beasts for the crown; at all events it is a curiosity worth seeing, and its a pity we can't go to London to look at it.

—We would not discourage the efforts of barkeepers and managers of worse places to reform and lead better lives, for "while the lamp holds out to burn, the vilest sinner may return," but if a pig should repent sincerely of his filth, he would make haste to leave the sty; and, moreover, if he were really an honest pig, if he really saw the filthiness of his ways, he would scarcely insist upon going into the parlor before he was washed.—[*New York Post.*

—In Philadelphia the Union League is authorizing a series of Republican meetings in Concert Hall, at which the most brilliant orators in the country speak, and a portion of the hall is reserved for ladies who always fill it. If a couple of rows of seats could be reserved in City Hall for the ladies, we feel sure they would appreciate the courtesy and speeches. If, however, this can not be done, at least the gallery at the back of the stage might be devoted to that purpose.

—With tremendous head lines of "First gun from Kansas," the Waynesburg *Messenger*, (Dem.) thus discourses: "That hitherto stronghold of Radicalism, Kansas, is beginning to yield to the Democratic shot and shell that is being poured into it. Kansas City was the main tower of strength, and had, up to Saturday, the 12th inst., resisted every effort to take it. But on that day it yielded to the irresistable onslaught of the Democracy. The occasion was the election of two School Directors." This tremendous victory in Kansas was also claimed some time ago in the Pittsburgh *Post*, (Dem.); Democratic geography probably transfers Kansas City from Missouri to Kansas, but Missourians would certainly be a little astounded to learn that a small town in Missouri is the stronghold of Republican strength in Kansas. But Democrats are so used to colonizing that we suppose they look at it from that stand point.

The Earthquake at Callao.

A letter from Callao gives the following particulars of the earthquake which took place on the 13th ult:

"For full five minutes, the heavy, rolling, rumbling shock continued, rocking the furniture, and even the houses themselves, with such violence that persons could hardly keep their feet, and an instantaneous rush was made for the street. Here the sight beggared description; all the affrighted people kneeling and praying in the streets, crossing themselves and falling in deep swoons full length on the pavement, old women kneeling with both arms upraised, screaming and crying; the great bell of Santa Rosa church tolling, while the terrified people fled in crowds within the sacred enclosure, and the great steeple swayed and crushed the affrighted masses. As far as the eye could see down the long and narrow street, the very street itself rose and fell in long billowy undulations, while out in the bay the ships tossed up and down under the violence of the tremendous internal jar.

"The night of the 13th was the most fearful night of horrors that Peru has ever known. The sea was rising until midnight and actually came in fifty feet over the mole and submerged all the lower floors of the stores and buildings on the streets nearest the water. Ships lying at anchor broke their moorings and drifted into each other. The American man-of-war Powhatan, lying here, was run into by a ship, breaking the iron jib-boom of the Powhatan, and the Powhatan, as well as all the Peruvian men-of-war lying here, steamed and went away out to sea. There seemed to be a regular undercurrent of whirlpool, so that ships went whirling round and round. Thousands of people walked the streets all night, and this morning the stores are closed and Callao seems deserted. A feeling of terror prevails that this may be the second St. Thomas affair; and if there should be another earthquake to-day, affairs would look dangerous. Ships are torn and battered, and the sea at the present writing boils and bubbles like a great whirlpool."

The Odd Fellows' Jubilee.

The Grand Lodge of the United States, of the Independent Order of Odd Fellows, has agreed to celebrate the semi-centennial anniversary of the introduction of Odd Fellowship into the United States, in Philadelphia, on the 26th of April next. We can predict, at this early day, that the ceremony will be showy and attractive to those citizens who are not attached to the Order, while to the initiated the proceedings will have peculiar value and significance. The Independent Order of Odd Fellows is the largest affiliated society in the United States. It has a very strong membership, and commands a bountiful fund. Its great objects are fraternity, friendship and love. Its deeds are those of charity and mercy, and its mission is to succor the sick, assist the widow and cheer the orphan. It has a foothold in every State and Territory in the Union, and it has had the good fortune to go through the troublous periods of our national history without contests or separation. It is an association, therefore, which merits the affection of its members and the goodwill of those who are strangers to its benefits. Parade and ostentation is not the object of this Brotherhood. It has been over twenty years since there has been a general parade of the Order in this city, the occasion then being the dedication of the hall in Sixth street. This great semi-centennial parade, therefore, will give to many who never saw the members of the Order in full regalia, an opportunity rare in its way. Probably such another parade of that society will not again take place in this city during the period usually allowed for the lifetime of a generation.—*Phila. Paper.*

RIVER NEWS.

The river, after having attained a height of nearly twenty feet on Saturday, commenced to fall rapidly, and last evening the Monongahela marks only indicated fourteen feet. The weather yesterday was clear and pleasant, and the rain seemed to be over for the present.

The New State and Bayard are the only arrivals we have to report from below. The Julia No. 2, from Zanesville, is due this morning, and the J. N. McCullough, from Cincinnati, should have reached here on Saturday. She may have been detained by the Wheeling bridge.

The Kate Putnam, for St. Louis, Ida Rees, for Cincinnati and Louisville, and R. C. Gray, for Memphis, departed on Saturday. None of these had full cargoes on leaving here, but they may be able to fill out below.

The Ingomar, which boat collided with the towboat Antelope at Grave Creek, the other night, has arrived and is undergoing repairs.

The Bayard, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at noon.

The Glasgow, in command of Capt. Andy Robinson, is the regular "Express" packet for Cincinnati and Louisville, leaving on Thursday next.

The Bellevernon, Capt. J. J. Darragh, will commence receiving freight for St. Louis this morning, and shippers should bear this in mind. The boat is a regular Pittsburgh and St. Louis packet.

At New Orleans, on Monday, a difficulty took place on the steamer Glide, lying at the foot of Custom-house street, between Capt. A. J. Dye, of the beat, and the barkeeper, Jerry Breen, during which the former was stabbed six times, and dangerously, though, it is believed, not mortally wounded. Breen was, we learn, under the influence of liquor when he went on board the boat. He is said to be well-known on St. Charles street, and was once engaged as an acter in the St. Charles Theatre.

—Cpat. Tom Reed has contracted for a side-wheel steamer, to run on the Upper Missouri. The hull of the new boat will be built at Freedom, and the machinery and cabin will be put up at Pittsburgh.

—The owners of the ill-fated steamer J. P. Webb have entered suit in the Common Pleas Court, at Louisville, against William Varble, who is a regular licensed falls pilot, for damages for the sinking of the J. P. Webb.

—The City Council of New Albany, at its session on Monday night, passed an ordinance exempting steamboats undergoing repairs, or being refitted from paying wharfage for a period of sixty days. This may be called enlightened self-interest.

—The following is a condensed report of Thursday's proceedings of the River Convention at Louisville: The Committee on the present depressed condition of the steamboat interests reported that the cause was attributed to the failure of the crops of the past year, and the high taxes imposed upon steamboats. Adopted. The Committee on the Restaurant System reported, recommending that it should be adopted by all steamboats. Adopted. A resolution was adopted appointing a committee of one delegate from each port to resuscitate the Association, and form associations where none exist. The report of the Committee on Obstructions was received. It recommends that Congress be petioned to cause all bridges across navigable streams to have five hundred feet spans. Pending the consideration of this report the Convention adjourned until 3 P. M.

—We clip the following from the Cincinnati *Commercial*: The Kenton arrived here yesterday morning, in command of her old commander, Captain J. H. Dunlap. Capt. Dunlap has had command of her for five years, and he informs us that she never lost a cent since he has been on her. Not many steamboatmen can boast of this. The Kenton has done some very good service in her days, having been in the Government service from the outbreak of the war until the day of Lee's surrender. She never suffered from any accidents, and is now in the very best order. She has been purchased by Captain W. H. Kerr, for the Pittsburgh and Portsmouth trade, as a regular weekly packet. Captain Kerr takes charge of her to-day, and leaves with her to-night for Pittsburgh. Captain Dunlap intends to retire from the river a short time, in order to pay proper attention to his malt interests at Bridgewater, Pa. He will remain in the city for a few days longer, and is stopping with Captain H. H. Brown, at the Spencer. Next spring we hope to greet Capt. Dunlap on board of a new packet, of which he will have full command. He is a capital fellow, and will always succeed in his undertakings.

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days. In long standing cases of consumption, or of other sometimes fatal but always troublesome and annoying maladies, known as catarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in the latter disease.

DR. KEYSER'S LUNG CURE IS ENRICHED BY SOME OF THE MOST VALUABLE PLANTS AND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETERIORATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glandular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, so hopelessly incurable and so most surely fatal.

Sold by the gross, dozen or single bottle, at

COLORADO gives BRADFORD (Republican) for Delegate 100 majority on the full returns.

THE ENTIRE VOTE of Maine had been, on the 23d, officially ascertained, except from one town and twenty-seven plantations. Governor CHAMBERLAIN's majority appears to be 20,404. In the Legislature the opposition have but 30 of the 149 Representatives, and 2 of the 31 Senators.

THE VOTE OF NEW YORK.

The *Evening Post* concedes that New York will be the most sharply contested of all the States in the Union," but that SEYMOUR will be defeated even with the vote of the Empire State in his favor. But the *Post* remarks:

> No Republican journalist or politician of good judgment has in his own mind conceded this State to the Democrats at the November election. The National and State nominations were made with reference to obtaining a majority in New York. There is no doubt that the Republicans will elect from three-fifths to two-thirds of the next Assembly, and almost the same proportion of the Congressional delegation. This narrows down the contest to the State and electoral tickets.

As to these latter, our cautious and well-informed cotemporary proceeds to express the strongest confidence that the personal popularity of the Republican candidates, the perfect concord of all shades of opinion within the party for their support, and the vigor with which our friends in the city have organized for this canvass, will, altogether, ensure success. Much, if not all, depends upon the vote of the city itself.

LOOK OUT!

The Baltimore *American* states that parties of men have been sent thence to Pittsburgh "under pretense of getting work, but really to be colonized as voters in October." The Harrisburg *Telegraph*, of the 26th, also says:

> We understand that a lot of Marylanders passed through here last night for the purpose of being scattered through Pennsylvania to vote the Democratic ticket in October. Westmoreland county was their especial destination, in order to defeat the Hon. John Covode. Let the Republicans take notice.

Our challengers should scrutinize every strange face, and object to every vote which justifies the slightest suspicion. They should also see that the record of these challenges is kept with minute particularity for subsequent use. We have been instructed as well by former experience as by the confessed desperation of the opposition tactics, this year, that they will stop at nothing, in their efforts to secure the defeat of Republicans whose efficient patriotism has rendered them obnoxious to the party of rebellion. The Democracy which upholds and honors the murderers of CASEY, in Clearfield last year, is not likely to hold back at any smaller villainy.

THE CONGRESSIONAL NOMINATIONS.

During the past week the nominations for Congress for the full term were completed on both sides by the action of the Democrats in the Ninth district, and the action of both the Democrats and Republicans in the Eleventh district. Only the nomination to fill the vacancy in the Twentieth District, occasioned by the death of FINNEY, remains to be made. On the Republican side S. NEWTON PETTIS has been named in Crawford county, but the district conference has not been held; nor have the Democrats made their selection.

In the Ninth the Democrats nominated ROBT. CRANE for the vacancy occasioned by the death of STEVENS, and H. B. SWARR for the long term.

In the Eleventh District VAN AUKEN secured a nomination, the attempt to supercede him at the end of his first term by SAM'L DREHER having failed. The Republicans nominated JOHN TORREY, of Wayne county.

The nominations, then, stand as follows:

Rep.	*Dem.*
1. B. L. Berry,	1. Sam'l J. Randall.
2. Charles O'Neill,	2. T. B. Florence.
3. Leonard Myers,	3. John Moffett.
4. Wm. D. Kelly,	4. J. B. Nicholson.
5. C. B. Taylor,	5. J. R. Reading.
6. J. R. Brietenback,	6. J. D. Stiles.
7. Wash. Townsend,	7. R. E. Monaghan.
8. H. S. Eckert,	8. J. L. Getz.
9. C. J. Dickey, (full term.)	9. H. B. Swarr. (full term.)
C. J. Dickey, (short term,)	Robert Crane. (short term.)
10. H. L. Cake,	10. J. J. Connor.
11. John Torrey,	11. D. Van Auken,
12. Theo. Strong,	12. G. W. Woodward.
13. U. Mercur,	13. V. E. Piolet.
14. J. B. Packer,	14. J. F. Knipe.
15. Samuel Small,	15. R. J. Haldeman.
16. John Cessna,	19. F. M. Kimmel.
17. D. J. Morrill,	17. John P. Linton.
18. W. H. Armstrong,	18. L. A. Mackey.
19. G. W. Schofield,	19. R. Brown.
20. C. W. Gilfillan,	20. R. M. De France.
21. John Covode,	21. H. D. Foster.
22. J. S. Negley,	22. Andrew Burtt.
23. Darwin Phelps,	23. L. W. Mitchell.
24. J. B. Donley.	24. David Crawford.

It may be remarked that, on the whole, the Republican nominations are not as good as those made two years ago. There are instances of improvement, but in the aggregate the new names do not represent as much ability as the old ones. The difference is quite marked. This is a fact specially to be deplored in the existing condition of public affairs. Nor have the Democrats done any better in this particular; but their remissness is of comparatively little consequence, as few of their candidates are likely to be elected.

Two years ago the returns of the Congressional election in this State showed the following results:

CONGRESS 1866.

Dist.	Rep.	Dist.	Dem.	Maj.
1. Gibbons	7,728	1. Randall	12,192	4,164
2. O'Neill	12,612	2. Hulme	9,475	3,137
3. Myers	12,520	3. Buckwalter	11,516	1,004
4. Kelley	14,551	4. Welsh	12,126	2,425
5. Taylor	12,250	5. Ross	11,800	456
6. Thomas	11,447	6. Boyer	14,009	2,562
7. Broomall	12,011	7. Pratt	8,531	3,480
8. Lincoln	6,999	8. Getz	13,188	6,189
9. Stevens	14,298	9. Reynolds	8,675	5,623
10. Cake	13,185	10. Glonlger	12,971	215
11. Lilly	9,121	11. Van Auken	15,907	6,786
12. Archbald	13,274	12. Dennison	15,280	2,006
13. Mercur	11,940	13. Elwell	10,653	1,287
14. Miller	14,190	14. Bowers	12,675	1,515
15. Henderson	12,180	15. Glossbrenner	15,830	3,341
16. Koontz	13,589	16. Sharpe	1,294	3,341
17. Morrell	11,268	17. Johnston	9,979	1,319
18. Wilson	14,734	18. Wright	12,688	2,046
19. Schofield	15,107	19. Scott	12,481	2,626
20. Finney	17,106	20. McCalmant	15,222	1,884
21. Covode	13,023	21. Weir	12,669	354
22. Moorhead	12,720	22. Sweitzer	9,655	3,065
23. Williams	14,197	23. Childs	10,012	4,185
24. Lawrence	13,391	24. Montgomer	11,853	1,538

In the First District RANDALL, Democrat, had a majority of 4,164, which it is not reasonable to suppose will be overcome, especially considering that the Navy Yard is there, and that Secretary WELLES will do all he can to ensure democratic success. However, BERRY, the Republican candidate, is not only acceptable but personally popular. He will materially reduce RANDALL's large majority.

In the Second, Third and Fourth Districts O'NEILL, KELLEY and TAYLOR are respectively secure. The City of Philadelphia, as the case now stands, will certainly give a Republican majority of 3,500, which the Soldiers' demonstration of the current week will inevitably swell, perhaps to twice that number.

The Fifth District is a close one, TAYLOR, Republican, receiving only 456 majority two years ago. His renomination imparts an assurance that the district will not now do worse than it did then, and may do better.

The Sixth District is Democratic by 2,500 majority, and it will stay at about those figures. It may be remarked, however, that the mining counties, last year, showed a reduction of Democratic majorities, and the same result may be disclosed in Schuylkill this year; but we do not count upon it.

In the Seventh District, TOWNSEND is certain to succeed BROOMALL, both Republicans.

In the Eighth District, GETZ will unquestionably be re-elected, his last majority having been 6,189; but Berks county holds $8,000,000 of Government bonds, mainly among its farmers, a majority of the holders being Democrats. It is not rash to calculate they will retaliate for the assault made upon them.

In the Ninth District DICKEY will get a majority considerably larger than Mr. STEVENS had ten years ago, which was 5,623. Fourteen millions of bonds were taken in Lancaster county, mainly by farmers. If Mr. STEVENS had lived he would have been reluctantly re-nominated, out of respect for his past services. If he had been ten years younger, and had survived, he would have been dropped, or else we do not read aright the auguries that came from his constituents.

In the Tenth District, Cake, Republican, will increase his majority from 215 to at least double that number.

In the Eleventh District the result will be about what it was ten years ago, when VAN AUKEN, Democrat, had 6,786 majority. He is a respectable man, totally without qualifications for the post he occupies, and obtained it only by virtue of the rule which provides that whenever a district is composed of more than one county, each of them shall furnish the member a ratable proportion of the time, whether they present suitable men or not. In the order of rotation the candidate was due to Pike county, and there is no Democrat living in that county fit to serve in Congress. The honor was claimed for the least objectionable man they had, and that man was VAN AUKEN.

TORREY, the Republican candidate, is a man of considerable natural but undeveloped abilities, cold, opinionated, repellent and conservative, but with an ample fortune; is, as a matter of course, destitute of the elements of personal popularity which would enable a different man to reduce the Democratic majority.

In the Twelfth District the coffee-ground brigade have headquarters. WOODWARD is not popular, and on a fair poll ought to be beaten by STRONG, who is; but it would be preposterous to expect an honest election in Luzerne county. Susquehanna, the other county of the district, will do better than usual. It may be stated that while DENNISON's majority, two years ago, was 2,006, Mr. WOODWARD, last year when he was chosen to supply the vacancy caused by Mr. DENNISON's death, had only 287 over KETCHUM. What Mr. WOODWARD's majority will be, will depend on the amount of cheating. On the square, Susquehanna can more than balance Luzerne.

In the Thirteenth District MERCUR will be re-elected by an increased majority.

In the Fourteenth District PACKER will gain on MILLER's majority of two years ago.

In the Fifteenth District SMALL will reduce the Democratic majority, but not enough to let him in.

In the Sixteenth District CESSNA is having a hard fight, owing to Democratic colonization from Maryland. His competitor, KIMMEL, is popular and indefatigable; but in both those particulars CESSNA labors under no disadvantage. In a fair contest, there would be no doubt about his case. As it is, we believe he will go through with a handsome margin. If he does, and shall be retained by his constituents, as he doubtless will be, he will become one of the most conspicuous and useful members of the Pennsylvania delegation.

In the Seventeenth District, MORRILL will be re-elected.

In the Eighteenth District ARMSTRONG will receive a decided increase on WILSON's majority.

In the Nineteenth district there is no doubt as to SCHOFIELD.

Nor in the Twentieth as to GILFILLAN.

In the Twenty-first District COVODE is having a rough time of it, as he always has, but is making a vigorous canvass, and is quite as likely to get through well as he was two years ago. There is dissatisfaction with him on the part of a few good Republicans which ought to be laid aside, and we hope will be.

In the Twenty-second District NEGLEY will succeed by just about the regular party vote.

In the Twenty-third District, PHELPS's majority will be increased, by virtue of the stronger condition of the party.

In the Twenty-fourth District DONLEY's election is beyond controversy.

The present delegation stands seventeen Republicans to seven Democrats. It is possible the Republicans may lose two members, and the Democrats gain two; in which case the delegation will stand fifteen to nine. That is the largest change that can be reasonably claimed by our opponents. We by no means concede that these two changes will occur in their favor, but only that they are possible. The popular current is with the Republicans. While the Democrats gain by naturalizations largely, the Republicans gain quite as much from the young men who vote on age, two-thirds of whom go with them. Educated under the discipline of the war, their generous and patriotic impulses lead them to take their places in the Republican ranks. Besides, the Republicans are receiving numerous accessions from Democrats who are engaged in active business, and who mean to do what they can to prevent the financial revulsion invoked upon the country by the Democratic platform. These accessions will increase rather than diminish up to the day of the election.

The Republican majority on HARTRANFT and CAMPBELL, in the counties on the western side of the Alleghenies, will not be less than fifteen thousand, and may mount to eighteen. Whatever it may be, it will be just about the Republican majority of the entire State; the eastern counties being balanced between parties.

But, with such a majority in October, a much larger one will be sure in November. Past experience shows that it will be doubled, at the lowest. This shows the importance of securing every vote possible for the Republican candidates in October.

Republicans of Pennsylvania! the omens are auspicious. Push on the work in the fortnight that remains.

GENERAL BLAIR—RESPECTFUL QUERIES.

The Democratic candidate for the Vice Presidency is to address our people to-day. Will he favor his audience with his views upon the following points:

1st. Is it the fact to-day, as it was on the 30th of June last, that "the reconstruction policy of the Radicals is the real and only issue in this contest"?

2d. Is it true to day, as in June, that "it is idle to talk of bonds, greenbacks, gold, the public faith and the public credit"?

3d. Is the "real and only question controlling the Democracy, that of restoring a government overthrown by usurpations"?

4th. Is the Constitution only to be restored "by having a President who will execute the will of the people by trampling into the dust the usurpations of Congress known as the reconstruction acts"?

5th. Is it true to-day that these "usurpations" can only be overthrown "in one way, and that is for the President elect to declare these acts null and void, compel the army to undo its usurpations at the South, disperse the carpet-bag State governments, allow the white people to reorganize," &c.?

6th. Does he still propose to have these "reforms" accomplished by Executive power only, without the co-operation of Congress?

7th. Does he still propose to ignore or override one branch of Congress, or how does he propose to secure the equal co-operation of the Senate and House of Representatives?

8th. How will it be "not difficult" in any event whatever, to "compel the Senate to submit" to the deprivation of its Constitutional right to judge of the qualifications and election of its own members, or of its other Constitutional right of participation in the law-making power of the Union?

9th. When, in what case, and how has the Supreme Court decided the reconstruction acts to be unconstitutional?

10th. If no such decision has yet been made, but is expected to be made next winter, and if the November election shall previously result in the choice of GRANT and COLFAX, who shall execute the judgments of the Court—President GRANT or the defeated Democracy?

11th. When did General BLAIR discover that woman's rights were an issue in the canvass? Why is it not mentioned either in his Brodhead letter or in the New York platform?

Our people desire to be enlightened on these points, and will not gratefully accept any disappointment of their just expectations. They understand Gen. BLAIR to be the official embodiment of certain doctrines which a large number of his fellow-citizens regard as revolutionary and directly endangering the public peace. They know, as well as he, that every rebel who wore the gray supports Gen. BLAIR as his candidate, regarding him as "the instrument whom they have expressly appointed" to the end that the "lost cause" may now be regained. He knows, as we all know, that in the election of himself and Mr. SEYMOUR, upon the platform which they occupy, the rebel South expects, as Gov. VANCE declared, to secure "all that the Confederacy fought for." He knows that the questions involved in reconstruction, and the methods by which he and his friends propose to overthrow existing legislation are the real and only issues of this canvass. He must therefore percieve that any evasion of these issues in his speech to-day will be as disgraceful to the party whose honor is entrusted to his keeping, as discreditable to a frank and fearless man who dares to avow his opinions and knows how to defend them.

We wish to do General BLAIR no injustice. We implore him not to be unjust to himself. He is reputed to be a gentleman of candor, veracity and honor. He is accredited with a good military record. He has achieved the distinction of having shaped the politics of a great party, being himself selected as their exponent. We beg that he will not slight the intelligence of our people by sinking "the real and only issue"—the issue "upon which he wished to stand" in the Convention which thereafter nominated him—in his remarks to-day. We trust he may be able to satisfy our people that he has the higher traits of intellectual ability, as well as the more inferior, —that he has the brains to explain and defend positions which he had the inventive originality and the soldierly courage to propound. We trust that his speech to-day will be such, in manner and matter, as to disprove the common understanding here prevalent, that he has been brought to this section, in the leading strings of a committee of guardians, to counteract, by some vague and mild platitudes of inoffensive speech, the decidedly unfavorable impressions which have condemned him. Let him shake off all such entangling restrictions; for no one doubts either his ability, his courage or the character of that violent issue which he holds dearest of all in this canvass. Let us hear the bold and dashing soldier to-night, not the crafty and mousing politician.

INDIAN TROUBLES.

The accounts we have been receiving from the Far West during the past quarter indicate a terrible state of affairs in those remote regions of our country. The Indians have taken the war path, and with all the atrocity characteristic of their race have visited their vengeance on the pioneers who have struck their squalid tents beyond the borders of civilization. The plain recital of their outrages on the whites without any coloring of fiction or fancy is sufficient to chill the blood with horror. Few persons can realize the reign of terror existing amongst the white people who have established homes away out in the West, from the conduct of the red men. If the awful truth were brought closer home to them there would be less sympathy felt for "noble Lo," who has been done up in prose and poetry, colors and statuary, as the soul of honor and nobility, by those who have never seen one outside of a museum. They are savage by instinct; as deceitful and treacherous as cunning; as dishonorable and wicked as barbarians could well be. They will remember a kindness only so long as the benefits therefrom derived may last, and will scalp a friend with as much grace and ease as they would tomahawk a foe. They are cowardly to an extreme, and are as loth to go a visiting to the happy hunting-ground as the more intelligent whites. Their dash and courage is only exhibited when they can dart upon inferior numbers, or weak women and children, for they never will attack a force numerically stronger than themselves. They stand as a great barrier to the empeopling of the far West, and so long as they know neither the power of law nor the promptings of humanity, they will continue to retard the settlement of lands and the extending of the line of civilization.

A gentleman who has just returned from Colorado and Wyoming, where he spent several weeks, furnishes us with the most horrible picture of affairs in those neighborhoods. The people are virtually living under ground through fear of the savages. The soldiers at the different forts have subterranean passages and quarters, and feel powerless to afford the proper protection to those who look to them for it. Murders without number are daily committed by the Indians, and they make no choice in the selection of their victims, killing men, women and children. One case, the murder of a boy, was attended with such awful cruelty and atrocity that we cannot furnish the particulars, being too shocking for publication. Our informant, like all other persons who come from the seat of trouble, sees but one course for the Government to pursue—the rigid rule of life for life, and the extinguishment, if necessary, of the entire race if they fail to come to terms and live in peace with those who have carried the plow to their hunting grounds.

There is something wrong in the administration of Indian affairs, and no remedy will be had until the bureau having charge of them is abolished and the business turned over to the War Department, where it properly belongs. Without, however, entering into any discussion of the causes which lead to the Indian depredations of the West, we see the importance of the Government putting forth a strong arm to restore peace on our western borders and protect those who are unable to protect themselves. Give PHIL SHERIDAN men enough and plenty of ammunition and he will prove the most successful Peace Commissioner ever sent out to treat with the Aborigines.

General SCHOFIELD, Secretary of War, has arrived at the conclusion that the strong arm of the Government should at once be levelled against the Indians, as trifling and half way measures have proven of no avail in dealing with them. In this opinion President JOHNSON coincides, and it is highly probable that active, vigorous warfare will at once be entered upon against the savage tribes.

PENDLETON AND THE NEW REBELLION.

A letter from Mr. G. H. PENDLETON, to a citizen of Texas, advising the rebels of that State to place a law of Congress at defiance, has just been printed. It is seen that he deliberately urges his friends to disregard an express enactment which is valid law throughout the Republic, as much so in Texas as in Ohio. This enactment excludes Texas, Virginia and Mississippi from the Electoral College this year, as having no organized State governments in accordance with the Federal Constitution. Mr. PENDLETON advises resistance to the excluding Act, in the following letter:

> "BANGOR, Me., Aug. 21, 1868.
>
> "SOMERS KINNEY, Esq., *Houston, Texas—My Dear Sir:* Yours of the 2d inst., dated at Brownsville, was forwarded to me from Cincinnati. In reply, I have only to say that you cannot urge too strongly our brethren of Texas to stand by the National Democracy, and resist all Radical attempts to abuse you. My heartfelt wish is that you may succeed in your new undertaking. We are making a last fight for constitutional liberty, and the signs of the time indicate a Democratic triumph hitherto unknown. Yield not a scintilla of your honor. *There is no room for compromise.* About your being allowed to vote, be not alarmed; *we shall see that Texas is represented. Vote, by all means.* Send me your paper to Cincinnati. I will write more fully to-morrow or the day after. Yours truly,
>
> GEO. H. PENDLETON."

NOT A BOND HOLDER.—The Utica *Herald* alluding to Mr. Seymour's declaration that he never "dealt in bonds or banking of any kind," says that Mr. Seymour was a director in the Onedia county Bank from its organization, in 1836, until it organized as a National Bank. The *Herald* asks the question, is it probable he held that position for that length of time, and "never dealt in bonds or banking of any kind?" It will be hard work to make the people believe that Mr. Seymour is a truthful man.

DR. SARGENT'S BACKACHE PILLS

Are the most efficient and most popular Diuretic medicine known, removing at once any obstruction of the Kidneys, subduing Inflamation and strengthening the Urinary Organs.

Dr. Sargent's Backache Pills

Have been in use 35 years, and are daily performing wonderful cures. In many instances where patients were unable to walk upright or to rise without assistance, they have been relieved by a single dose.

Dr. Sargent's Backache Pills

Cure all diseases of the Urinary Organs, the symptoms of which are weakness and pain in the back and loins, pains in the joints, difficulty in voiding the urine, general debility, &c.

THE KIDNEYS, BLADDER, &C.,

Are those organs through which most of the waste or worn out particles of the body passes: these worn out and dead particles are poisonous, consequently when these organs are diseased the whole system becomes deranged, and if not relieved at once the result may be fatal.

This much esteemed and most efficient medicine is the only diuretic that is put up in the shape of Pills, and is much more easily taken than the ordinary diuretic draughts, the Pills being sugar coated

HAS SUMMER ENFEEBLED YOU?

Nine out of every ten to whom this question is addressed, if they answer it candidly, will answer it in the affirmative. Some may reply to it from a sick bed; others, of a stronger constitution and greater powers of endurance, may only experience a slight lassitude as the consequence of the torrid season. But some portion of the vitality of all human beings oozes out of them under the pressure of great and continuous heat, and the sooner the loss is completely repaired, the less susceptible will the system be to the unhealthy influence of the Fall malaria.

The most genial and wholesome tonic that has ever been offered to man—as a means of recruiting his exhausted strength, and fortifying him against the attacks of disease—is HOSTETTER'S STOMACH BITTERS. Taken at this season it is a perfect safeguard against intermittent fever, bilious affections, and all the epidemics which follow close upon the expiration of the Summer. It is an invigorant and alterative without any of the drawbacks which attach to mere stimulants, and is the only preparation of the kind which a conscientious physician would feel inclined to prescribe for ladies in delicate health. Nothing can be more pure, more harmless, more certain to restore the vigor of the system permanently and thoroughly, without exciting the pulse or the brain.

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out the animal economy all effete and used up material. Dr. KEYSER'S LUNG CURE is enriched by some of the most valuable plants and herbs known to be useful and curative in all deteriorated states of the human blood, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glandular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, so hopelessly incurable, and so mostly surely fatal. Let any one afflicted with any pulmonary disease try but one bottle, and they will be convinced of the value of Dr. Keyser's Lung Cure. Sold by the gross dozen or single bottle, at Dr. KEYSER'S Great Medicine Store, 140 Wood st. DR. KEYSER'S RESIDENT OFFICE for LUNG EXAMINATIONS AND THE TREATMENT OF OBSTINATE CHRONIC DISEASES, 120 PENN STREET, PITTSBURGH, PA. Office hours from 9 A. M. UNTIL 4 P. M.

GRANT ON THE PACIFIC COAST.—The *Alta California* says: The Democratic newspapers have sufficiently amused themselves and their readers by circulating a great deal of nonsense about Grant's career in California, and his reputed pranks at every obscure burg in the State. To set at rest all disputes as to where Gen. Grant was stationed when he was on the Pacific coast, we make the following extract from his military record, as given in Cullum's "Register of Graduates of the Military Academy," which work is conclusive authority: "Served at Benicia, Cal., 1852; and on frontier duty at Columbia Barracks, Oregon, 1852-3; and Fort Humboldt, Cal., 1854; resigned July 31st, 1854."

THE new Senator elect, Dr. Miller, of Georgia, claimed for Seymour a few weeks ago, is now set down for Grant, on the authority of Joshua Hill, his Republican colleague.

BEAUTIFUL

SUBURBAN RESIDENCE

AT AUCTION.

On Thursday Afternoon, Oct. 1st,

At 2½ o'clock, on the premises, will be sold by auction, the very handsome residence and grounds of DILL A. SMITH, Esq., situate on Squirrel Hill, adjoining the residences of Abram Garrison, B. Frank Jones, and others, (Twenty-third ward,) within ten minutes' walk of Laughlin Station. The improvements consist of a neat, comfortable and convenient Cottage of eight rooms, an additional cottage, which embraces wash and bath rooms, water closets, an elegant stable and carriage house.

The grounds comprise about three acres, laid off in the most modern style of landscaping, and planted with the greatest variety of choicest fruit, in full bearing. Studded with fine evergreens and sherbbery. For beauty of location, varied and picturesque scenery, it is unsurpassed by any in the surrounding district. Also, another lot of 4½ acres, immediately adjoining, will be sold as a whole or to suit purchasers.

If not sold before October 1st, will be sold by auction. Enquire of

ADMINISTRATOR'S

POSITIVE SALE.

I will sell at the COURT HOUSE, in the City of Pittsburgh, on

Tuesday, October 6, at 12 o'clock M.,

The following tracts of land situated in Tyrone and Perry townships, Fayette county, Pa., viz: One tract containing 320 acres, having a front of near 2½ miles on the Connellsville Railroad and Youghiogheny river, near Miltenberger's Station, having from 75 to 80 acres tilled land, balance of land timbered and suitable for grazing; there is also on this tract good building stone, and stone suitable for making hydraulic cement. Another tract, containing 221 acres and allowance; on this tract is a large brick and frame building, 60 by 140, admirably adapted for a large Tannery, with engine and boiler, and machinery heretofore used in the manufacture of fire brick, but which can readily be made suitable for grinding cement or bark; there is also on this tract bench stone for glass house furnaces, and the best of stone for making hydraulic cement; also, veins of coal and fire clay, a considerable quantity of timber, and 50 to 60 acres tillable land. Miltenberger Station, on the Connellsville Railroad, is located on this tract, which has a front of over 2 miles on the said railroad.

Terms of sale made known on day of sale. Persons desirous of visiting said land can get all information from the undersigned.

S. F. VON BONNHORST,
Administrator, de bonis non. etc., of GEO. MILTENBERGER, deceased.

This Company, National in its character, offers, by reason of the Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, *an annual income equal in ten per cent.* (10 *per cent.*) *of the par of his policy* The latter the Company agrees *to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.*

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or its General Agents

☞ LOCAL AGENTS ARE WANTED in every City and Town; and applications from competent parties for such agencies with suitable endorsement, should be addressed TO THE COMPANY'S GENERAL AGENTS ONLY, in their respective districts.

The Pittsburgh Gazette.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, September 26, 1868.

The gold market is running steady at 142¼: opening at 142⅜, declining to 142⅛ and closing at 142¼. Gold is scarce and commands 1-32 per cent. per day to loan, yet the bull clique is powerless. The rise of our securities in the London market to 72¾ and 76 in Frankfort enables bankers to ship bonds where commercial bills are insufficient to meet the demand for exchange, and importers are not disposed to buy gold now for remittance to Europe. The favorable prospects of electing a Republican government in October and November strengthens the national credit at home as well as abroad, and tends to bring down the premium on gold, although the heavy imports and the small exports would not warrant a heavy decline. Should, however, gold decline materially before November next, then a reaction at the end of the month to a higher premium than the present is almost inevitable, and we might witness a recurrence of last summer's market.

Governments, although higher in Europe, are dull here and the larger dealers keep aloof from heavy engagements; none but small parcels change hands. It is expected that during the week the money market will be closer and on that account bonds will decline. The demand for export is limited.

Stocks are firmer, closing buoyant; Erie, New York Central, North Western and Cleveland are the features of the day.

Express stocks are firm and higher. Money not quite so easy as last week—business was dull.

Closing quotations as received by Ph. R. —The earnings of the western roads, the bulk of whose business is the transportation of grain, has not come up to the expectation of the public, who were led to suppose that from the enormous yield that it would be immediately transported to the seaboard, as was the case last year; but a little reflection will show that the present stagnant state of the breadstuffs market is perfectly natural. Last year at harvest time, the markets were entirely bare of wheat, and prices enormously high, and farmers hurried their grain to market, and it was shipped immediately to supply the pressing needs of consumers. This year the large crop has caused a decline of 25 per cent. in prices, and the farmers refuse to sell, hoping for higher prices in the winter, and will probably hold on until they see their hopes are futile. Speculators are also waiting, and are not willing to purchase at present figures. Added to this, heavy rains have prevailed at the west during the past two weeks, making it impossible to move grain to market, so that although the roads at present are doing less business than last year, their prospects for a heavy business during the winter and spring are promising, and their earnings for the whole year will show a heavy increase over last—*N. Y. Tribune.*

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, September 26, 1868.

GENERAL REVIEW.

At no time during the past year has the market been subject to such violent fluctuations as it has been during the past week. During the first three days Refined advanced from 28½c@29c to 33 cents; since then it has declined to 31½c@31¾c, sales having been made at these figures to-day. And the feeling between the "bulls" and "bears" has become so bitter, that an outsider passing by, when the opposing parties are assembled on the curbstone, would almost imagine that it was a political meeting or a row. The receipts of Crude during the week were 16,300 bbls against 22,824 bbls last week; receipts since January 1st, 781,336 bbls. Exports of Refined 16,900, against 18,236 bbls last week; since January 1st, 494,833 bbls, against 476,473 same time last year, showing an increase of 18,360 bbls. The sales for the week were 66,200 against 95,500 last week.

CRUDE.

Notwithstanding the decline in Refined, Crude, as yet, does not appear to sympathize much, the sales to-day, compared with those of Friday evening, showing but very little change. We can report 3,000 bbls, on spot, at 12c; 1,000 each October, November and December at 12c; also, 1,000 bbls on a bluff, at 12½c: for October and one hundred dollars, and there was another sale similar to the above pending when we left, but it had not been fully decided—we will give the result in our next report. Last evening there was a sale of 1,000 bbls on spot, at 12c; also, 1,000 bbls at 12½c.

REFINED.

The Refined market has still further declined, being off fully half a cent, compared with Friday. Sale of 500 bbls for September at 31½c; 500 do at 31¾c; 500 do at 31½c, and 500 each for October, November and December at 30c. The market, although quiet, closed steady, there being, so far as we could learn, no further disposition to make concessions in order to effect sales.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, September 27, 1868.

The general markets have been quiet and rather dull during the past week, and devoid of any important characteristics worthy of special notice. The inclement condition of the weather had a tendency to retard business somewhat, and besides the grand political demonstrations on Wednesday and Thursday absorbed the time and attention of our merchants and manufactures, and, as a consequence, business was considerably neglected.

APPLES—In good supply but unchanged; regular sales at $2,50 to $4 per barrel.

BUTTER—Is in better supply, but with a continued steady demand, prices are maintained, ranging from 35 to 40c.

EGGS—Steady, with sales of fresh packed at 22 to 23c—mostly at 23c.

SEEDS—Sales of Timothy Seed at $3,50 to $3,75. Flaxseed is scarce and in demand, and may be quoted at $2,45 to $2,50. Clover Seed is dull and nominal at $8,75 to $9.

CHEESE—Quiet and unchanged at 15 to 16 for Western Reserve and Hamburg; 17 to 18c for Factory and Goshen, and 19c to 20c for Sweitzer.

POTATOES—Dull, and cannot be quoted above $1 per bushel, and $3 per barrel. Sweets firm but unchanged at $6,00 to $6,50 per bbl, as to quality.

FEATHERS—We are cognizant of offers to sell live geese feathers, on arrival, at 75 cents per lb.

TALLOW—It may seem a little strange, yet it is nevertheless a fact, that this article is being bought here for shipment to Cincinnati. One house here has been buying for three years for shipment to that place, where it is manufactured into soap and candles, a portion of which is then shipped backe here. We quote rendered at 12 to 13 cents.

HEMP—Sales to the trade at $200 per ton—in small lots at 10 cts per pound.

SALT—Is dull and unchanged; Allegheny River brands at $1,75 to $1,80 to the trade, and $1,95 to $2, in small lots.

GRAIN—Wheat is dull and nominal at $2,00 to $2,05 for Red and 3 to 5 cents higher for White. Corn is dull and declining both East and West, and while it is also dull here, prices are nominally unchanged at $1,14 to $1,17. Oats firm with sales at 65 to 66 on track, and 68 to 70 in store. Rye is scarce and in demand, and may be fairly quoted at $1,40 to $1,45. Barley is in limited supply, and in fair demand but unchanged at $1,90 to $2,00.

PROVISIONS—Bacon is quiet and unhanged at 14 to 14¼ for Shoulders: 16½ for Ribbed and 18 to 18¼ for Clear Sides, and 21 to 22 for Sugar Cured Hams. Lard is quoted at 20 to 20½c, in tierces, and 22, in kegs. Mess Pork, $31 to $31,50.

LARD OIL—Is quiet and unchanged at $1,20 for No. 2, and $1,50 for No. 1.

MILL FEED—Is very dull but unhanged at $1,10 for Bran; $1,30 for Shipstuffs, and $2 for Middlings.

WHISKY—The market continues firm and as but few of the distilleries are in operation, in consequence of the high price of grain, it is not likely that the supply, which is now very light, will be much increased. We quote at present rectified per gallon $1,30; highwines per gallon $1,40; half rye and half corn per gallon $1,75; old Monongahela two years old, per gallon $2,25; and old Monongahela three years old $3,50 per gallon.

FLOUR—Is dull and weak and unchanged. We now quote good to choice Spring at $9 to $9,50. The mills continue to quote at $10,50 for Extra Family, in barrels, and $10,20, in sacks, and Double Extra at $11, in barrels, and $10,70, in sacks. Rye Flour, $8,75 per bbl.

St. Louis Cattle Market.

(By Telegraph to the Pittsburgh Gazette.)

ST. LOUIS, September 26.—Cattle receipts and business fair, prices unchanged at $3a6,50 gross for common to choice.

The Pittsburgh Gazette.

CLIPPINGS.

THE latest dispatches from Spain represent that the insurgents have issued a proclamation, which says that when they are victorious, their future course relative to the government of the country will be decided by universal suffrage.

THE difficulties in Georgia will immediately receive a thorough investigation by Gen. Meade, who is in command of the military district in which the State is situated. At the interview between the President and Secretary of War and Gen. Meade, instructions were given to inquire into the causes of the outbreak at Camilla, and to report at once to the War Department.

ANOTHER railway across the Alps, besides that by way of Mount Cenis, will be soon in operation. The third section of the road by way of Simplon was opened September 6th. This route, it is asserted, will form the high road to India, since it will terminate in the heel of the boot shaped peninsula of Italy at Brindisi, the most convenient port for travelers bound to the Isthmus of Suez.

THE BOOK PUBLISHERS of London whose names are familiar to the reading public, it is asserted, are personal strangers to each other. The old system of bringing out standard works known as trade books, and owned on shares, has died out completely. The same isolation exists among the literary men of London, and the cause of this reserve is said to have arisen from the subdivision of employment by which each writer falls into the habit of attending to one branch.

AN excellent apparatus for informing travelers of the names of stations is used on the cars of the Ogdensburg and Lake Champlain Railroad. It consists externally of a box, surmounted by a bell, and having a glass plate in front, under which the name of a station appears in letters of about three inches in length. When the train arrives at the station named on the indicator, the bell on the top of the box rings, and presently the name of the next station on the line appears under the glass plate. The plan ought to be adopted on all railroads. It would save the passengers anxiety, and the conductors much trouble.

MR. A. T. STEWART's new colossal retail store, in New York, is to be opened for business near the middle of October. This establishment will cover more than two acres, and occupy the whole block between Broadway and Fourth avenue, and Ninth and Tenth streets. It will be the largest retail dry goods store in the world. No other can be compared with it, either in size or magnificence. Some European firms may do as extensive a business, but their establishments are divided into different buildings. The largest entire edifice in Europe, devoted to the same object, is that of Morrison, in London, and is less than half the size of this.

THE Atlantic Ocean has been the subject of investigation by Mons. Savy, whose observations on the density and saline qualities of that ocean and on its currents, have been published in the Paris *Moniteur*. The density, it is stated, varies regularly from pole to pole on the same meridian, the minimum being situated at the equator, and the maximum between the parallels 40 degrees and 60 degrees north latitude. Between 60 degrees north latitude and the North pole the density again diminishes, and it is surmised that the minimum exists at the pole. The observations in the Southern hemisphere do not show a diminution of density below 60 degrees, but it is supposed that further investigation will prove that the same rule exists in the Southern as in the Northern hemisphere.

FOR SOMETHING like one hundred years a fire has been burning in the the disused workings of the Bank Pit Colliery, at Parkgate, near Sheffield, England, and on more than one occasion it has threatened to break through into the workings of the collieries belonging to Earl Fitzwilliam. About twenty years ago this danger was imminent, and a thick bank wall was erected to avert it. During the recent dry weather the ground in the neighborhood has cracked to a considerable extent, and it is supposed a current of air has found its way into the workings, caused the fire to spread. The danger of its breaking through into the Earl's collieries has again presented itself, and, under the direction of the manager, steps are being taken to prevent it. The fire is believed to extend over many acres of workings.

AUSTRALIAN BEEF and Mutton are now being introduced into England in large quantities. Formerly the sheep and cattle of Australia exceeded by several millions the actual wants of the colonists, who, in order to dispose of their flocks profitably were obliged to boil down the carcasses for the tallow, which with the skins and the wool formed the principal articles of export. The Government of the Colony of Queensland, not long ago, offered a handsome reward to the person who should succeed in shipping to England a given quantity of Australian meat. Numerous attempts have been made to carry out this project, but the failures have been very large in number. Recently, however, there has been received in England 2,000 whole sheep, 2,500 legs of mutton and 10 tons of beef, shipped from Australia. The process of preparation of this cargo is very simple. The bones are cut out of the carcass, which is then steeped in pickle, wrapped up in clean white cloths, and packed closely in barrels with the interstices filled up with seeds or melted fat, for the purpose of excluding the air. Another experimenter has fitted up a ship with the necessary apparatus for receiving a cargo of frozen meat, which is expected to arrive in England about December.

MIDSHIPMAN ED. D. TAUSSIG, of the U. S. steamer Wateree, writes a graphic account of the earthquake in South America. He volunteered to take command of a boat which put off from the Wateree to pick up a man who was seen drifting by that ship on a mass of earth and weeds, but was caught by the tidal wave and prevented from returning. Finally his boat was thrown against the Peruvian corvette America, and he got ashore in a curious fashion. They boarded the corvette amid a tremendous sea, but not before their boat had been dashed to pieces and sunk under them while they clung to the ropes. Hardly had they touched the deck before the vessel grounded, while the sea broke over her fearfully. The crew were crazy with liquor and clamoring for more. The captain had been drowned a few moments before, and the first lieutenant could not make his voice heard above the roar of the waves and the wailing and the crying of his crew, until he finally gave it up in despair and wept. Two of the masts were carried away, the sea continually breaking over the ship, when suddenly the water receded, and they were left on the sand. They descended, joined hands in two ranks and ran for life inland. The return of the sea caught them again, but not rushing with great velocity, it did no harm, and after running half a mile they were safe. The tidal wave by measurement was 42 feet high.

Petroleum Items.

A new well was struck a few days since on one of the Vanrenselaer Company's leases of the Clinton Oil Company's property on Cow Run. Since pumping was commenced the production has been steadily increasing, and it is now fully fifty barrels per day. This is now one of the largest producing wells on Cow Run.

A well on the Hoover Farm, Allegheny River, below Franklin, was torpedoed a day or two ago and produced largely for about six hours, when some one of the working apparatus broke down, and it has not since been started up.

A new well called the Fee, No. 6, on the Atkinson Farm, Upper Cherry Run, was struck last week and is now producing about thirty barrels per day.

The Broadhead well on the Shaffer Run, near Reno, which was lately completed, is reported to be producing thirty barrels per day.

The Barber well on Charley Run, near Oil City, is said to be doing ten barrels. It was struck about three weeks ago.

The shipments of Petroleum from Tidioute for last week reached 3,577 barrels.

The Yanney well on the Woods Farm, which was producing one hundred and seventy-five barrels per day one month ago, has since decreased and is not now producing over one hundred and ten barrels. It is still the largest producing well on the Farm.

The production of the Allegheny river has fallen off between six and seven hundred barrels per day.

The demand for Western home consumption has set in, and it is now drawing largely in the capacity of Cleveland refineries. That market is bare of refined at present, and the stock of crude is reported to be lighter than at any other period this year. It is estimated that the western trade will require 2,000 barrels daily for a month to come.

On Saturday last the Petroleum market on the Creek grew firmer, and since then prices have advanced, and yesterday there were sales at $4.00 at all points along the Creek. So far there has been a very firm feeling among sellers, and many of them were yesterday holding out for a further advance from the above price. The outside home markets have also become firmer and prices have appreciated considerably. Antwerp and Liverpool became effected on Tuesday last by the rise, and the quotations from those markets show decided advances. From all this it is evident that the long talked of "bull" movement which was to allow everybody who was "long" of Crude and Refined to unload, at least without loss, has been inaugurated. It was reported on the Creek on Saturday afternoon last that the movement in both Crude and Refined had been commenced by strong parties at Pittsburgh and Philadelphia. The feeling on the Creek strongly favors the movement, and a majority of the dealers are assisting it. Where or when it will end, and how largely prices will be effected, are questions which cannot be answered with any degree of accuracy. The Lyle Farm on West Pithole Creek, near the National Oil Company's property, was recently sold at bankrupt sale at New York, for $25,000. At the same time 8,000 shares of the National Oil Company's stock were disposed of. The price is reported to have been two and one-half cents on the dollar on the par value.

A new well has been struck on the Boyd and Stewart Farm. It is now being tested, and the indications are favorable.

The well owned by O. G. Emory & Co., on the Benedict Estate Company's property, which was yesterday reported to be producing from fifty to seventy-five barrels per day, is not doing over fifteen.

—The New York *Tribune's* Atlanta special, concerning the riot at Georgia, says: An official investigation in the Camilla massacre shows that it was even more bloody and atrocious than was at first reported. Capt. Pierce and Mr. Murphy saved their lives by making the Masonic signal. The negroes were hunted with dogs, and when caught they were butchered in cold blood. The Democrats of the Legislature adopted a white-washing report yesterday, and to-day Mr. Bryant of the House, moved to reconsider this action, and to send the report back to the Committee with instructions to make it full and impartial, but the Democrats in the House, aware that the Committee had white-washed the riot, promptly voted down the resolution to reconsider. Gen. Sibley has sent an officer to Camilla to make a searching investigation, and to report upon this massacre.

—Wm. F. Foster will be executed at Baltimore on the 14th of December for the murder of Emeline Parks, both colored.

Daily Prayer Meeting—From 12 M. to 12:30 o'clock at the Rooms of the Christian Association, No. 23 Fifth street.

Fair and Festival.—A grand Fair and Festival will be held at Lafayette Hall on Wednesday, Thursday and Friday, September 30th, October 1st and 2nd. A brass band in attendance every evening.

City Councils.—A regular meeting of the City Councils will be held this afternoon at two o'clock.

Drunk in squads, drunk in companies, drunk in battallions were the men who received Gen. Blair yesterday morning.

Query.—How many sober men received General Blair at the Allegheny Valley Railroad Depot at one o'clock yesterday morning? Planchette writes "nary one."

The Seventh and Eighth Wards Grant and Colfax Club will hold their regular weekly meeting this evening, when all the members are requested to be present

Surety of the Peace.—J. Adams made information before Justice Ammon Saturday, against John Malone for surety of the peace. A warrant was issued for the arrest of the accused.

Beastly drunk, frightfully demoralized, gloriously intoxicated, were the men who played escort to Gen. Blair yesterday morning. This foreshadows what we may expect on the 5th of October.

After the demonstration of drunken, brawling men yesterday morning General Blair must have no very high opinion of the decency of the new friends he has found in the Democratic party.

Alleged Larceny.—John H. Fink made information before the Mayor, Saturday, charging Jacob Blatter, *alias* John Jacob Hahn, with the larceny of $200. A warrant was issued for the arrest of the accused.

Did the "wickedest man" of the *Post* count the drunken men in the Democratic escort to Gen. Blair yesterday morning? If so, tell us how many chaps remained after deducting those who were so very drunk?

Orders for Tanner Club Equipments of Capes, Caps and Torches filled on *twenty-four hours notice*. Leave your orders at the Campaign Equipment Depot and Flag Manufactory of John W. Pittock, opposite the Postoffice. 3

Assault and Battery.—George E. Long was charged with assault and battery on Saturday, before Justice Ammon, on oath of Pierrie Boloihinge, a Frenchman, who alleges that the accused knocked him down. A warrant was issued for the arrest of Long.

Disorderly Conduct.—William Needham made information before Justice Ammon Saturday, charging Sam Morgan with disorderly conduct. Morgan was arrested, but on promising to be more orderly in future he was discharged on payment of the costs.

Settled.—G. Hartman made information before Justice Ammon Saturday, charging John Stevenson with assault and battery. The accused was arrested and taken to the Justice's office, where the case was settled, and the accused discharged upon the payment of costs.

Threatened Her.—Mrs. Christian Goering made information before the Mayor, Saturday, alleging that her husband, Chas. Goering, had threatened her with violence. Charles was arrested and held to bail for surety of the peace, in default of which he was committed.

For Europe.—Dr. Thomas C. Rhoads, of Allegheny, leaves to-day for Europe. The Doctor is going on a professional tour, and will be absent about twelve months, during which time he will visit the hospitals and medical institutions of the old world for the benefit of his profession.

The "wickedest man" in Pittsburgh has been found in the reporter who sketched for the *Post* the account of the recent Republican demonstrations. A prayer-meeting in the *Post* sanctum is being arranged, and we trust all good Christians will attend, and aid the sinner in his work of repentance.

Personal.—Hon. Francis P. Blair arrived in the city on Sunday morning at one o'clock from Kittanning, where he addressed his Democratic fellow-citizens. He is stopping at the St. Charles Hotel, and was yesterday called on by a number of citizens, irrespective of party, who paid him their compliments.

Organize.—A movement is on foot to form a general organization of the various equipped campaign clubs of the Republican party in this city and Allegheny, and to that end a meeting of the commanders of all Grant and Colfax and Tanners' Clubs is requested at City Hall Tuesday evening, 29th inst., at 8 o'clock.

Fire in the Twenty-first Ward.—Friday evening a small building in the Twenty-first ward, occupied by Mellon Brothers, lumber merchants as an office, was destroyed by fire. The building was surrounded by a large quantity of lumber, which, for a time, was seriously threatened by the flames, but the heavy rain which was falling at the time prevented the fire from spreading and the further destruction of property was prevented.

The Monongahela Wharf.—The Monongahela wharf has been materially damaged by the recent rise in the waters, and the probabilities are that but little more work will be done there during the present season. The wharf logs have been displaced or removed from their positions from the centre to the lower end of the wharf, and cannot be replaced until the water recedes below the original position, which it is not likely to do the present season.

Straws.—Hon. J. N. Purviance, of Butler, in his trip from Franklin to Titusville, last week, took the vote with the results as follows:

Franklin to Oil City: Grant, 97; Seymour, 24.

Oil City to Petroleum Centre: Grant, 17; Seymour, 3.

Petroleum Centre to Titusville: Grant, 39; Seymour, 19.

This is a fair specimen of how the vote will stand on election day.

Larceny of Carpet.—Within a few weeks past Messrs. McCallum Bros., carpet dealers on Fifth street, have missed several rolls of carpet, which have mysteriously disappeared from their premises, and were unable to get any clue to the thief. Saturday they received information which caused them to suspect Joseph Muncey, a colored man, who was formerly in their employ, and W. B. McCallum made information before the Mayor charging him with larceny. Officer McCready arrested Muncey about ten o'clock Saturday night and took him to the lock up, where he awaits a hearing.

Wanted Whisky.—John Porter and David Wilson it is alleged were behaving themselves in a very disorderly manner Saturday evening. They called at Mrs. Hannah Morgan's saloon, on Penn street, and demanded liquor, which was refused, whereupon they abused the landlady in a shameful manner. Thomas Evans, a boarder at the house, interfered, when they set upon him and beat him outrageously. He and Mrs. Morgan both made information before the Mayor yesterday charging Porter and Wilson with assault and battery. A warrant was issued for the arrest of the accused.

DEMONSTRATION IN ALLEGHENY.

Mass Meeting in the Diamond—Four Thousand Republicans in Council—Address by Hon. Lewis Barker, of Maine—Great Enthusiasm.

As the campaign progresses, the determination of the people to crush out the element of discord which has for the past eight years agitated the public mind, and labored so assiduously to destroy the Government, is becoming more and more apparent. Each succeeding day as the appointed time for the great battle which is to decide the fate of the nation draws near, the enthusiasm increases and will doubtless continue to increase until the 13th of October, when the decisive battle will be fought and the old Keystone State will speak in tones of thunder against Democratic treason by giving a majority so large as to completely discourage and forever silence all traitors to the Government. That the great tide of public opinion is preeminently in favor of General Grant is a fact indisputable, and it is fully proven by the enthusiasm of the people on his behalf. Every demonstration of the Republicans throughout the land has been an acknowledged success, and thousands upon thousands assemble at every call for a meeting.

The meeting in the Diamond, Allegheny, Saturday night, although only an impromtu affair, was unprecedentedly large, and the enthusiasm of the masses unbounded. Long before the hour appointed for organizing the meeting, the multitude began to assemble, and by half past seven o'clock the entire square of the Diamond, upon which the speakers' stand is erected, was a dense mass of human beings—a perfect sea of heads of men and women, who, notwithstanding the uncomfortably cold atmosphere, turned out in their might, the women to aid with their presence as the men will with their votes, to defy treason and drive it from the nation.

The Germania Turner Band being in attendance entertained the vast multitude with excellent music until the meeting was organized.

The meeting was called to order by John A. Myler, Esq., who announced the following officers:

President—Capt. H. S. Fleming.

Vice Presidents—Capt. A. H. Phillips, Prof. L. H. Eaton, Jas. H. Sewell, Robert Dalzell, John Heath, Esq., Col. W. F. Dill, John Brown, Charles Hartman and H. F. Eggers, Esq.

Secretaries—Reporters of the Republican press.

Mr. Fleming, on taking the chair, in a brief address thanked the meeting for the honor conferred upon him by calling him to preside, and then introduced the Allegheny Glee Club, led by Prof. Slack, who favored the meeting with a song.

Hon. James L. Graham was then called upon and addressed the meeting until the arrival of Mr. Barker.

At the close of Mr. Graham's remarks the Allegheny Glee Club was called upon and responded with an excellent campaign song.

The arrival of Hon Lewis Barker, from Maine, was then announced, and when the honorable gentleman presented himself upon the platform the enthusiasm of the vast assemblage knew no bounds, cheer after cheer going up for the gallant State from whence he came, followed by cheers for Grant and Colfax, until it was impossible to hear or to be heard. When the enthusiasm had subsided, Mr. Barker took the stand, and after thanking the meeting for the flattering reception they had tendered him, proceeded to address the vast assemblage. In consequence of a temporary affection of the throat Mr. Barker was exceedingly hoarse, and it was with the greatest difficulty that he could make himself heard except by those who stood near him. He several times declined to speak, but the cries of the crowd to "go on" induced him to make the effort. The hoarseness gradually wore away as he progressed, and he continued to speak for nearly two hours. His address was one of the most able that has been delivered in this county during the campaign. The speaker displays great versatility of argument, and is full of wit and humor; in fact, he possesses all the characteristics requisite for a popular orator, and is decidedly one of the most thoroughly posted men in the country. He demonstrates by practical illustrations every point he discusses, making it clear and distinct to his hearers.

At the close of his address the meeting adjourned with three cheers for Maine, three for the speaker, and three for Grant and Colfax.

Ward Nominations.

The Republicans of the First and Third wards held their primary elections Saturday afternoon, when the following tickets were nominated:

FIRST WARD.

Select Council—James Reese, two years, Geo. W. Coffin, one year.

Common Council—W. R. Boggs, Jno. Seiferth and Alex. W. Rook.

School Directors—George Wilson and Josiah Cohen, three years, and Jno. Cuthbert, two years.

Judge of Election—S. H. Vandegrift.

Inspector—Andrew Humbert.

Return Inspectors—John H. Hay and Julius Franke.

Assessor—James Gracey.

Constable—Matthew Keep.

Messrs Reese and Coffin, the nominees for Select Council, are at present members of Council, as also is Mr. Boggs, one of the candidates for the Common branch, and have been very acceptable representatives. Messrs Rook and Seiferth are substantial citizens, the former one of the proprietors of the *Dispatch*, and the latter member of an extensive mercantile house.

THIRD WARD.

Select Council—John Shipton, two years, Dr. T. J. Gallaher, one year.

Common Council—David Sims, Henry Daub and John Jahn.

School Directors—David Sims and John Daub.

Alderman—Col. W. B. Neeper.

Judge of Election—John T. Brown.

Return Inspector—Peter Dressler.

Messrs. Shipton, Gallaher, Sims and Daub are at present members of the respective Councils for which they are candidates, in which capacity they have given general satisfaction, as is evidenced in their renomination. Mr. Jahn is a new selection, but a gentleman widely known throughout the ward as one of stability of character and sound common sense. Altogether the ticket is a good and strong one.

The Soldiers' Convention.

Perhaps fifteen hundred citizens of this city will visit Philadelphia to participate in the forthcoming Soldiers' Convention. Would it not be well that all go together in a club representing Pittsburgh without regard to wards or boroughs? By filing off in fragmentary delegations the city would lose much of the credit which should accrue to it were the forces visiting the Convention concentrated in one solid club designated as the Pittsburgh or Allegheny county delegation. With a view of organizing such a visiting body the Second Ward Club holds a meeting to-night at City Hall, and all those contemplating making the trip should be in attendance.

Meeting at Irwin's Station.—The Republicans of Westmoreland county held a "rousing" meeting at Irwin's Station, on Saturday. Special trains were run from this city to Latrobe, conveying hundreds to the meeting, which was organized at two o'clock, by calling W. D. Mullen, Esq., to the Chair, assisted by a number of Vice Presidents and Secretaries. The meeting was then ably addressed by Hon. John Covode, after which the assembly adjourned to meet at 7 o'clock in the evening, when General Blakely and Colonel Glen made able addresses.

THE COURTS.

United States District Court.

[Before Judge McCandless.]

In the case of the United States vs. The Vinegar Manufactory of Arthur Ballou, Judge M'Candless rendered the following decision: "I have carefully considered this case, and I have arrived at the conclusion, that no sufficient reason has been assigned to justify the Court in disturbing the verdict of the jury.

"The motion for a new trial is therefore overruled, and a decree of forfeiture to the United States ordered."

In the bankruptcy branch of the Court, final discharges were granted and certificates awarded as follows: Isaac Furman and John Weitzell, of Westmoreland county; Christopher Gemberling and David B. Kauffman, of Union county.

A petition for adjudication was filed by L. L. Brink, of Luzerne county.

The following petitions for final discharge were filed: Alexander B. Mayor, John Barry and Levi Conner, of Clinton county; James G. Mersereau, Cameron county; Stephen N. Whecher, Erie county; John Carriel, Potter county.

A petition was filed by Thos. Snodgrass, setting forth that Jno. Snodgrass is indebted to him in the sum of $611, and asking that he be declared a bankrupt. The petitioning creditor avers that the debtor disposed of his stock of goods at public auction, and made payment of money to a New York firm with a view of giving them preference over the petitioner and other creditors. A rule was granted on the debtor requiring him to show cause why the prayer should not be granted. An injunction was also granted restraining him from disposing of his property.

Court of Quarter Sessions.

[Before Judge Sterett.]

James Lee, colored, who plead guilty to misdemeanor in unlawfully cutting and wounding William Avery, also colored, was first called up. The affair occurred on the Fourth of July last, at the house of Lee, near Temperanceville. He was sentenced to pay a fine of fifty dollars and to undergo an imprisonment of one year in the Western Penitentiary.

Charles F. Fenkner was convicted of the larceny of fifty dollars from John Dofling, on the night of the 3d inst. He was sentenced to undergo an imprisonment of sixty days in the county jail.

Archibald Wasson, convicted of larceny, was next called up. The defendant was found guilty of stealing one hundred dollars from Joseph Young, who was stopping at a tavern on Penn street, Twelfth ward. He was sentenced to undergo three months imprisonment in the county jail.

Brutal Conduct.

Information was made before the Mayor, Saturday, by Mrs. Diana Wood, a respectable lady of middle age, against Charles Golden, for indecent assault with intent to commit rape, disorderly conduct and surety of the peace. She alleges that several nights ago the accused came to her house at a late hour and demanded admittance, threatening her in the most violent manner if she refused. She did refuse, and then he besought her to come down and talk with him, promising to go away peaceably if she would do so. She consented, and after a little conversation he went away. On Friday night she says he came back and made the same promises. Again she opened the door, when he pushed violently past her, and, drawing a dirk knife, threatened to kill her if she made any noise or resistance.

After gaining admittance his conduct was of the most brutal and beastly character. The lady by strategy succeeded in getting out of the door, when she raised an alarm which brought several persons to her assistance, and among them were officers Hayden and Cooder. The ruffian attempted to escape, but was brought to a halt by some one of the neighbors who "shied" a brick at him, striking him on the head. The officers then took charge of him and conveyed him to the lock-up, where he remained until Saturday morning, when after a hearing he was fined twenty-five dollars for disorderly conduct, and in default of $2,000 bail was committed to jail on the other charges for trial. If the charges against this fellow be true no punishment could be severe enough for him. We hope he will get full justice.

Free Fight.

An affray occurred in Dilworth, Porter & Co's. rolling mills, South Pittsburgh, on Friday evening, which, but for the interference of one of the proprietors, might have been attended with serious consequences. John Lutzgas, the millwright of the works, got into an altercation with one of the rollers named Wm. Jones. Lutzgas was standing on a ladder, about twenty feet from the ground, at the time, and Jones started up to bring him down. Upon reaching Lutzgas' position, Jones received a blow on the arm from a heavy mallet, and was also cut on the side of the head with a chisel, nearly severing his ear. He hastened down the ladder, and was followed by Lutzgas, when the fight was resumed. The other workmen took Jones' part, and between them succeeded in giving Lutzgas a severe drubbing, when one of the proprietors interfered and stopped the affray. Lutzgas appeared before the Mayor Saturday evening and entered a charge of assault and battery against Jones and others. His head is very badly cut, and he has a wound under his left eye about an inch in length. Justice Barker took the information of Jones, charging Lutzgas with felonious assault and battery.

Amusements.

OPERA HOUSE.—To-night we are to have a change of programme at the Opera House, and instead of the White Fawn, Shakspeare's Midsummer Night's Dream will be presented under the direction of Mr. Whitman, Manager of the Europeon Ballet Troupe. The piece is a most excellent one and as it is to be cast with the full strength of the company and having the addition of the excellent ballet, it will doubtless prove a success.

Obstruction.—A slight interruption to travel occurred on the Connellsville Railroad Saturday morning, at Soho. A freight train was moving off the main track to a siding to allow the regular passenger train to pass, when several of the cars jumped the track and consequently blockaded the road for several hours.

TIME.

A Magnificent Time-Piece for the Allegheny Valley Railroad.

Careful railway officials throughout the country and here at home recognize the grave responsibility resting upon them, that the time whereby is operated the running machinery of the roads in their control is accurate and true to a nicety. A failure to attend to this all-important matter has, in more than one case, resulted disastrously, terrible accidents being sure to follow in the wake of negligence. Where the business of a road is large and the quantity of rolling stock to be moved every moment of the day and night is proportionately heavy, rendering the framing of schedules a mathematical labor of no ordinary character, it is a matter of necessity that the time in which the locomotive is made course his iron path should not vary a single second in the hour. Human life and thousands of dollars' worth of property depend on the precision of the clock that quietly performs its labor in the central depot under the watchful care of the Superintendent and train master. Every watch in the pocket of the engineer and conductor, every fixed clock in the cabin of the locomotive, is taught to keep steady march with the solitary clock to whose pulsations the whole road is operated. Let the central monitor become deranged and fail to do its work, and all the watches and clocks of the trains keep time at random, and there will be the dashing of engines into engines, and that terrible, rapid running around curves, over bridges, through cuts, and along precipices to make up for time lost. The mechanism of the clock manufacturers has kept pace with the demand for a perfect and infallible measure of time for railway purposes, and to-day our leading railway offices each boast of a regulator which is no more liable to register time beat than is the water of the roaring Niagara to cease plunging itself over its bed of rocks. On Saturday we were afforded a full idea of the development in this mechanical science, having been permitted to look into the wondrous machinery of a mammoth time piece just furnished the office of the Allegheny Valley Railroad Company by those standard time keepers, Messrs. J. R. Reed & Co., No. 68 Fifth street. This marvellously fine specimen of handiwork, of course, came from America's prided watch and clock manufacturing company, Howard & Co., Boston, and is a monument to the excellence and exquisite finish and perfection of their work. Of its furniture we need not speak, save to say that it would grace and adorn the finest parlor in the land. The works are as fine as those of a chronometer watch, and since Galileo first put into practical use the oscillation of the pendulum as a time measurer, no more perfect piece of delicate machinery, on so large a scale, has been put forward in a clock. The wheels are of fine steel and brass, the pivots set on hard resisting jewels. and the entire works are perfect models of neatness and beauty. The pendulum is a mercurial one, so that it will not be affected by either the heat of summer or the blasting frosts of winter. Of course, the cost of this elegant instrument was large, but the Allegheny Valley Railroad Company, always careful in looking after the welfare and safety of passengers, ordered the very best time register obtainable, and recognizing Messrs. J. R. Reed & Co. as standard authorities in railway time, entrusted them with the order. That they have fully discharged their part of the contract is amply evidenced in the splendid piece of workmanship which now graces the office of the company. The new clock will keep Reed's astronomical time and will be invariably correct, as observations are daily made, and the least deviation from correctness even to the nicety of a quarter of a second, is at once detected. Messrs. Reed & Co. have made time a speciality and they have now the honor of not only measuring the hours and moments for the entire city, but for the majority of railways centering here. This is high testimony of their infallibility in such matters, but is no more than is warranted by their exertions in this direction.

Good for East Liberty (22nd Ward).—The handsome property of Jonas R. McClintock, in the Twenty-second, ward formerly East Liberty, at the junction of Pennsylvania avenue with the Greensburg pike, has been laid out into a well arranged plan of 134 lots, with wide avenues, to be sold on the premises by auction to-morrow (Tuesday) afternoon. This is one of the very best locations within the city, and so well-known to all our readers that we need not speak further. For particulars see McIlwaine's auction advertisement.

Centre Avenue Property, Minersville.—The handsomely situated and very desirable property of W. M. Gormley, Esq., on Centre Avenue, Minersville, now city of Pittsburgh, will be sold at auction this (Monday) afternoon at three o'clock. This fine homestead has been sub-divided into seven large lots, on one of which is the excellent brick double mansion, and on another is a two story frame dwelling. The improvements are complete in every comfort and convenience. For particulars see McIlwaine's auction advertisement.

Beautiful Suburban Residence at Auction.—On Thursday, October 1st, at 2½ o'clock P. M., Messrs. H. B. Smithson & Co. will sell, on the premises, the handsome residence and grounds of Dill. C. Smith, Esq., on Squirrel Hill, near Laughlin Station. For particulars, see their advertisement.

Monongahela Valley Railroad.

A meeting of stockholders of the Monongahela Valley Railroad was held at Monongahela City on Saturday. Captain Thomas W. Briggs reported that he left here on Monday last to procure the letters-patent for the Company, with the necessary certificate of the road, signed by Dr. J. B. Stilley, the Engineer, and the application to the Governor of the State, signed by six corporators, in his possession. On Tuesday he procured the letters patent and has them now in his possession.

On motion, the corporators were requested to hold an election for officers of the Company on Wednesday, the 14th of October next, at the office of Capt. Thos. W. Briggs, No. 142 Water street, Pittsburgh.

The meeting then adjourned.

Time Changed.

On Saturday last the Allegheny Valley Railroad Company promulgated an order setting all the time pieces by which their trains are run to agree with the splendid Howard Regulator, just erected in their depot by Messrs. J. R. Reed & Co., the well-known jewelers. Henceforward the road will use Reed's standard time alone, as do nearly all of the railways centuring in our city. Readers who have occasion to travel by railway will make a note of this item and set their watches to agree with Reed's regulator or the "big bell," which measures the flitting moments for the city as it also keeps the infallible record of the Fifth street establishment.

Mass Meetings.—Republican mass meetings will be held at Hare's Hotel and City Hall on Tuesday and Wednesday evenings, the 29th and 30th inst., respectively. Hon. Mahlon Chance, of Ohio, will address the meeting at Hare's Hotel, and R. Stockett Matthews, Esq., of Baltimore, will speak at City Hall. Mr. Chance is an able and eloquent speaker, and will doubtless have the pleasure of speaking to a large audience. Mr. Matthews made a reputation when here upon a former occasion, which we have no doubt will fill City Hall to its utmost capacity.

Freedom of Speech.

The overthrow of the rebellion insured not alone the perpetuity of the Union. It determined that henceforward the Constitution shall be observed so far as guaranteeing in one State all the rights of citizenship to every one coming from another. Freedom of speech is one of those rights. Prior to the war it did not exist in the Slave States, and whoever expressed views differing from his neighbor, was liable to receive a coat of feathers, to be ridden on a rail, or to be driven out of the State. Northern papers were thrown out of the mails, and one subscribed to an anti-slavery sheet at his peril.

The people of the late Confederacy experience much difficulty in making up their minds that all this is now changed and the Southern States have now entered upon a new era. The sooner, however, they arrive at this conclusion and act accordingly, the better it will be for all concerned. Freedom of political and religious opinion and expression *will and must be enjoyed* and maintained hereafter from the St. Lawrence to the Rio Grande. Let any community or class of citizens beware from acting on any different supposition.

GEORGE WILKES has a standing offer of several thousand dollars on Pennsylvania *even*—no takers. The Dix letter has been a new wet blanket on the faithful. One wag proposed to put up a pile that Kentucky would not give ninety thousand to the rebel ticket. "I would not touch it," was the reply—"there is no telling where the devil this stampede will stop." The uneasy feeling among the Irish Catholic Democracy is another symptom. The refusal of the *Irish People*, of New York, a weekly which circulates more heavily than any other excepting the New York *Ledger*, to support Seymour, followed by the loud growls of the great Irish Catholic *Freeman's Journal*' have created quite a stir. Much as we have been indisposed to believe that any considerable portion of that class of our adopted citizens could be brought to vote against the leaders who have gulled them so long, that contingency does not seem to be so remote. Now the tide is all *against* Seymour, and there is neither inducement to spend money nor to risk jail in his behalf. There is nothing so dangerous as the habit of false calculations before elections. Men may commit mistakes; these are natural; but when Democratic papers deliberately misstate figures, and hide the weakness of their own cause, they tempt their credulous followers into the most damaging cources. Hence the heavy losses to honest Democrats who put up their money on Maine.

IN THE South the impression prevails that General Grant surrendered to Lee at the Appomatox Court House. Colonel Breckinridge, of the Confederate army, in his speech at Owingsville, said they "proclaimed a general amnesty," to all their old foes. It is a fresh thing for paroled prisoners of war to grant their conquerers a general amnesty.

Democratic Counterfeiters.

Some time ago a citizen of Blair county, Penna., forwarded to General Spinner, United States Treasurer, one of the bogus dollar greenbacks got up by the Democrats as a burlesque upon the national currency. This specimen is printed on common coarse paper, with green ink front and back, and the engraving is from a wood cut roughly done; but at a little distance off it might readily be mistaken for a genuine note, and could easily be passed at night, or upon near-sighted persons as a genuine bill. Instead of Mr. Chase's likeness on the left hand corner, which the genuine dollar greenback has, this imitation bears the likeness of Seymour, and has a *fac simile* signature of Treasurer Spinner in its usual place at the bottom, right hand side. On the back it contains a "promise to pay the bondholders in greenbacks, including 5-20 bonds," which is the Democratic doctrine. The object in sending this note to General Spinner was to ascertain whether it was not a violation of the law establishing the national currency, and Mr. Spinner referred the matter to Solicitor Jordan, of the Treasury Department, who is of the opinion that all such imitations, for whatever purpose issued, are clearly violations of the law, and all parties concerned in issuing or trafficking in them are liable to fine and imprisonment for so doing. General Spinner has written a reply to the gentleman in Blair county, in which he sets forth these facts, and eloquently shows that if Seymour and Blair are elected these unauthorized emissions will unquestionably supersede the genuine national currency, which will become valueless. The Blair county gentleman states that large numbers of these imitations have been circulated in western Pennsylvania and adjoining States, and that many simple minded farmers have been imposed upon and received them for money, being told by interested parties that they were just as good as greenbacks. General Spinner has also received information that this villainous imitation has been largely circulated in the South among the colored people, and passed among them in immense quantities, the unsophisticated blacks being told that if they vote for Seymour and Blair these notes will pass as money, and be as good as greenbacks to buy corn, potatoes, or any other necessaries of life. This is one of the most disgraceful modes of electioneering ever attempted in this country, and the strong arm of the law will be invoked to crush it out and punish the originators if they can be reached.—*Wash. Cor. N. Y. Sun.*

THE surveys for the suspension bridge across the Hudson river have been completed. Examinations were made of the highlands on both sides of the river from Verplanck's Point to Buttermilk Falls. The plans have been prepared with detailed maps of everything necessary to form an opinion of the best place to build the bridge and a Board of Engineers has been convened to decide upon the location.
